Old Abel's Millstone.

BY MARIA NORTHROP.

From "The Magazine."

OCTOBER.

This relation upon his daughter's death

was such an extraordinary masterpiece

of witicism that he fairly roared with laughter.

By-and-by Tom Smith moved "on."

When he had had his laugh out, finding that

Abel's attention was still engrossed by the

wonderful joke, he turned the opportunity to

throw his arms around Polly's waist, at which

the dandy did not like being laughed at.

The devoted lover to "adore, and not to

soil."

"Well, what brings you here?" inquired

Abel, whose laugh was now subsided into a

giggle, and who was now looking at him with

a "Wry face, he saw me home, and

brought the cucumber for a present."

"My stars, that's a beauty!" cried

Abel, who, Tom, for those numbers I

like better. Some people say Tom's

cucumber is a "beauty," but taken

with the pepper, I don't think there's much

in "beauty" they don't have it."

## Anti-Early Ruin.

Partners generally do not rise as early as  
they did twenty years ago, and I think  
ought not to. Some rise at 6 o'clock, and  
others at 7 o'clock, and are up at three or  
four o'clock, have breakfast at 7 o'clock,  
and then work contentedly. Most of them  
will enough that if there are hired men,  
they must be up at 6 o'clock, and be ready  
early, but on the whole, I think what is  
known as the habit of early rising is as  
much an error as it is a virtue.

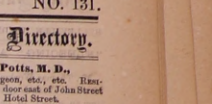

## Daily Intelligencer.

## Free Trade and Farmers.

The following letter written by a West  
Lambton farmer appears in a recent  
number of the Farmer's Advocate. You will  
note the farmer's expression of opinion on  
the question of free trade against protec-  
tion, and his conclusion, which is not un-  
likely to be shared by many of our readers.  
Left it to better men, and now more wish  
to advert to one or two fallacious argu-  
ments, which are often used, and contrary  
to the facts of the case, and to the  
Great error arises from regarding the ques-  
tion in a purely abstract manner. The  
theory is, that you can think they may  
adopt free trade or protection or prohibition  
as a maxim, and by deciding for one or  
the other save themselves all further trouble  
in the study of political economy. This is a  
great fallacy, and the necessity of an intimate  
knowledge of commercial interests must  
always remain, and must be carefully con-  
sidered. Maxims are short roads to knowl-  
edge for the ignorant and idle. The question  
can not be separated from the consideration of  
revenue. Direct taxation is abhorred,  
while custom duties are paid with alacrity,  
and great failures are made by the farmer.  
The farmer is not a maxim, and a Canadian  
drover pays to the American Custom House  
\$1,000 duty on cattle which he sells at the  
ports to the States at a small profit, and  
price in the United States—neither more  
nor less—as the consumer, and they do not  
pay any duty and are content. Editors of  
a certain class say the drover did not pay  
the duty, for he got a better price for his  
cattle than in Canada, and so nobody  
sees to have paid it, and the United  
States government is the loser. The  
otherwise would have had \$1,000 more  
profit and could have paid a higher price  
for his cattle. Surely, if it is a question  
of raising revenue, Canada ought to have  
more of it. It seems remarkably good for  
the States, and for deciding for one or  
the other save themselves all further trouble  
in the study of political economy. This is a  
great fallacy, and the necessity of an intimate  
knowledge of commercial interests must  
always remain, and must be carefully con-  
sidered. Maxims are short roads to knowl-

a certain class say the drover did not pay

cattle than in Canada, and so nobody  
sees to have paid it, and the United  
States government is the loser. The  
otherwise would have had \$1,000 more  
profit and could have paid a higher price  
for his cattle. Surely, if it is a question  
of raising revenue, Canada ought to have  
more of it. It seems remarkably good for  
the States, and for deciding for one or  
the other save themselves all further trouble  
in the study of political economy. This is a  
great fallacy, and the necessity of an intimate  
knowledge of commercial interests must

## Daily Intelligencer.

## Town and Vicinity.

**ARRIVAL.**—The "Steamship Ontario," from Liverpool, arrived at Father Point this morning at 4 o'clock, with 7 cabin and 10 steerage passengers.

**THE CELLS.**—There were two vagrants and one prisoner—the latter an old and well-known female tramp, who hails from Toronto—in the cells last night.

**CENTENAL AWARDS.**—Amongst the awards made at the Centennial not heretofore published, is one of a bronze medal to our townsmen, Mr. W. C. Nunn, for his elaborate railway signal.

**GRAIN MARKET.**—Reports from Oswego and elsewhere continue unfavorable, but no alteration was made in our market today, prices ranging the same as yesterday. Receipts were considerable, and the elevators were kept busy all day.

**FISHING.**—Our bay fishermen have been in the fall fishing, but so far their efforts have not been very successful. A considerable number of herrings were caught in gill nets last night, and the fish are in fine condition. Doubtless the fishing will become more profitable as the weather grows colder.

**RESCUE.**—While Lewis Marlow and Van Sillman were on the bay in a skiff yesterday afternoon gathering up driftwood which had been adrift, their little craft upset. Both men being good swimmers clung to the boat, and were picked up by the yacht "Surprise," which was cruising in the neighborhood of where the net was set. The rescue was effected with considerable difficulty, owing to the high wind and heavy sea which prevailed.

**TO THE CENTENAL.**—The last and cheapest excursion to the Centennial will take place to-morrow, under the auspices of the Nipawase League of Oldfellows. The "Osprey Belle" will leave here at 1 o'clock p. m. on this last Centennial excursion. As the fare to Philadelphia and return is only \$9, or \$10.50 returning via New York, we expect to see the opportunity thus afforded taken advantage by a large number of our citizens. Judging from the number of tickets already sold, it is probable that at least fifty persons will go from Belleville.

**PROF. FOWLER.**—This well-known phonologist will deliver the first of a course of three lectures in the Metropolitan Hall to-morrow evening. The first two lectures will be of 20 cents will be charged. Mr. Fowler is so well known to our readers as standing at the head of his profession that it is unnecessary to reproduce the notices of the press in any place which he has visited. He may be consulted at his rooms at the Danforth House on and after to-morrow, up to the time of his departure, from 8 a. m. to 3 p. m. each day.

**REDUCTION OF FARE.**—As a large number of persons from all parts of this agricultural district will desire to visit the Provincial Ploughing Match, which is to be held near this town on the 19th inst., arrangements have been made for a reduction of railway fare to all who will be witnesses the match. The Grand Trunk Railway Company, with their usual liberality, have agreed to issue tickets from all stations along the line at one and one-third fare for the double journey, good from the 17th to the 21st, inclusive.

**CRICKET.**—A friendly game of cricket was played yesterday on the Belleville Cricket Ground between the Belleville and Brighton Clubs, resulting in an easy victory for the latter. Belleville having won the toss, sent their opponents to the bat, and they played two and a half hours, the latter being the larger score of 134 runs, of which Martin made 20; Bowles, 27; Lockwood, 26; Quick, 10; Marsh, 22; not out. Belleville then went to the bat, and in running in commenced with 94, leaving the Brighton players 60 ahead in the first innings, which forced Belleville to follow their innings. They added 70 more to their score, leading Brighton by 10 runs which the latter succeeded in making with the loss of three wickets. On the Belleville side Smart made 31 and 5; Thomas, 10 and 11; Reeves, 13 and 0; Clarke, 5 and 18, not out.

**STREET LAMPS.**—Public opinion has proved too strong for the Nipawase Town Council who refused to have the streets lighted with gas, and it will be supplied by the Company which has lately erected works there. The Standard says:

"The matter of considering the advisability of lighting the streets with gas has been referred to the Street Committee with instructions to inquire into the probable cost, and any other facts which suggest themselves. The committee is pledged to report on the gas, and it may be considered a settled fact that the darkness prevailing on our streets all of the nights of every month will soon be a thing of the past. The Company is very liberal in its offer to light the lamps all night for \$10 each. That is, we believe, the best offer for the kind it is done in any of our provincial towns." This indicates a complete breakdown on the part of the Council, who would have been wise had they consulted public opinion before coming to a conclusion in the premises.

**Seasonable Topics.**  
 —There is nothing like a good white frost to convince the ladies that it is time to bring in the pump. Warnings like these are never heeded.  
 —If Market Street were properly graded, there would be no pools of water lying on the north side and access to the market building in wet weather, would be far more agreeable.  
 —They are coming into winter quarters. The footsteps of the troops are heard in the distance.  
 —The month of September just passed will go into history as the driest and most disagreeable autumn month that sunflowers ever tried to ripen in.  
 —The latest reason given by a second Adventist, for the non-fulfillment of the prophecy of a general conflagration, is that "the world was too doped west to burn."  
 —Now that the gates are no longer ajar, and the blessed fountains are taken inside, pupes with marriageable daughters are concerned about getting girls.  
 —Three more months of leap year privileges, girls. The next year divisible by four is 1880, and many of you will have passed the threshold of old-maidhood.

**Police Court.**  
 (Before A. Diamond, P.M.)  
 Thursday, Oct. 5.  
**ACCUSEE LANGUAGE.**  
 The adjourned case of Mrs. Wm. Ellis and Adolphus Durgoy was decided in favor of the defendant, and the complainant adjudged to pay the costs of the case.

**NON-PAYMENT OF WAGES.**  
 In the case of Oliver Humphreys vs. Foster, Barber & Brignall, judgment was given in favor of the complainant for \$10, the amount claimed.

**DEATH.**  
 Margaret Oakley was sent to jail for 30 days.

**ASSAULT.**  
 Adam Sharp was charged with assaulting Patrick McLaughlin at Frankford on Tuesday last. The hearing of this case was adjourned till Monday next.

**FROM GRANTON.**  
**SUICIDE.**  
 GRANTON, Oct. 5.—A man named Wm. Brooks, near this place, committed suicide this morning, by cutting his throat. Cause not yet known.

**FROM PARIS.**  
**DREADFUL RAILWAY ACCIDENT.**  
**FIVE PERSONS KILLED.**

PARIS, Oct. 5.—A dreadful accident occurred to the night express, bound east on the G. W. R., last night 2 miles west of Princeton, in which five persons were killed, namely: the engineer, fireman, two express men, and baggage-man. The train was going at the rate of 35 miles an hour, and a man was thrown from the track and hurled into the ditch. The passengers escaped unhurt. The accident was caused by one of the wheels of the engine catching fire, which broke off. Have not learned full particulars as yet.

## THE REGATTA.

The first annual Regatta of the Bay

of Quinte Yacht Club took place to-day

with a fair amount of success. The entries

were not so numerous in the second class

as had been hoped for, but the boats were

well matched, and an interesting contest

was the result.

The morning looked very unfavorable,

the wind being from the south and

falling, but shortly after 9 o'clock

the skies began to clear, and the wind

blew from the south-east, and soon a

rattling breeze came down from that quarter

—the best for a race on the bay. The

boats all made their toilets in quick style,

nearly all of them hauling in quick style,

and downing starts jibs, ready for any

emergency.

The start was made a little after time,

as follows:

Katie, 10:17 1/2

Surprise, 10:18 1/2

Peerless, 10:19 1/2

Emma, 10:19 1/2

Zitella, 10:19 1/2

As they squared away for the Point the

first presented a very pretty sight, balloon

jibs and square sails being hoisted, and a

rattling breeze came down from that quarter

The order of starting was maintained in

delivering the buoy at Massena Point, the

leading boat seeming to have about held

her own, when the Surprise ran well up

the leaders, the Emma being close on the

Peoples and the Zitella having dropped con-

siderably behind.

THIRD CLASS.

There were three entries, the Sunday,

Lady Kate, and Whig, but the latter

had started over the course with the second

class and could not be recalled, consequently

the two first named started, as follows:

Sabbath School Association of

Canada.

The thirteenth Provincial Convention of

the Sabbath School Association of Canada

will be held at the Bridge Street Hotel

on Wednesday, the 10th, 11th and 12th

of October, 1876. The following are the names

of the officers elected for 1876:

PRESIDENT.—Mr. William Edgar, Hamil-

ton.

VICE-PRESIDENTS.—Hon. James Ferrier,

Magdalen; Principal Dawson, L.L.D., Mont-

real; Rev. F. H. Marling, Toronto; Mr. W.

Beattie, St. Catharines; Hon. R. L. Plint,

Belleville; Mr. James MacKenzie, M. P., Oak-

ville; Mr. Alfred Rowland, London; Very Rev.

Dean Bond, L.L.D., Montreal; Mr. Daniel

McLennan, Toronto; His Honor Judge Jones,

Montreal, and the Presidents of the County

Associations.

TREASURER.—Hon. John McMurphy, To-

ronto.

GENERAL SECRETARY.—Rev. Wm. Millard,

Toronto.

MINUTE SECRETARIES.—Rev. J. S. Hamilton,

Toronto; Rev. G. W. Givins, Hamilton;

Mr. A. MacPherson, Dundas.

EXECUTIVE COMMITTEE.—Mr. G. Webster,

London; Mr. W. S. Bowman, London; Mr. N.

Hosier, Hamilton; Mr. J. C. Catharine;

Mr. P. W. J. McCall, St. Catharines; Mr. J.

Waller, Martin, Chatham; Mr. J. R.

Miller, Galesburg; Dr. McInnes, Gales-

burg; Mr. J. C. Catharine; Mr. J. L. H. H.

Ley, M. A., Owen Sound; Mr. Somerville,

Owen Sound; Mr. D. Fotheringham, Aus-

tara; Mr. A. L. McKinnon, Hamilton; Mr. D. B.

Hamilton, Hamilton; Mr. B. S. Whipple,

Hamilton; Mr. S. Jones, Hamilton; Mr. P.

W. Dayford, Hamilton; J. G. Hodgins, L.

L. D., Toronto; Mr. W. Adams, Toronto;

Mr. C. M. Toronto; Toronto; Rev. John Wood,

Toronto; Mr. John Gillespie, Toronto; Mr.

James Hughes, Toronto; Rev. J. M. Camer-

on, Toronto; Rev. J. D. B. D., Toronto;

Rev. S. J. Hunter, Toronto; Rev. A. H.

Munro, Toronto; Rev. S. J. Boddy, M. A.,

Toronto; Mr. S. R. Briggs, Toronto; Mr. A.

McMurry, M. A., Toronto; Mr. W. H. Pearson,

Toronto; Mr. J. J. Woodhouse, Toronto; Mr.

T. D. Craig, B. A., Toronto; Mr. J. Phillips,

Toronto; Mr. C. C. Casswell, Mississauga;

Rev. Septimus Jones, M. A., Yorkville; Rev.

J. R. Stevenson, L. L. B., Montreal; Mr. J.

A. Matthews, Montreal; Rev. David

Marsh, Cobourg; Mr. William John, Belle-

ville; Mr. C. O'Hara, Newmarket; Rev. W.

C. O'Meara, L.L.D., Port Hope; Mr. W.

Craig, senior, Port Huron; Rev. James

Douglas, Cobourg; Mr. G. D. P. Toronto;

Mr. J. Lecher, Ottawa; Mr. Arthur Chas-

king, Kingston; Mr. G. W. Andrews, King-

ston; Rev. Wm. McKinnon, Almonte.

The gathering is likely to prove a large one,

the acceptance of invitations to be present be-

ing numerous. It is also expected that the

Convention will be of a decidedly practical

character, it having been the aim of its pro-

moters to secure that desirable result. De-

putations from kindred associations, the other

British Provinces, and from the United

States, are likely to be present. From this

Provincial Convention, which was held in

Belleville in 1870, is remembered as that

which gave a fresh impetus to our Sabbath

School Association work. Nothing will be

wanting on the part of the Local Committee

of the city of Belleville to make it an event

superbly pleasant and profitable. The Rev.

Richard Newton, D.D., of Philadelphia, has

promised to preach to the mass meeting of S.

Scholar. To say who are not acquainted with

his name, we may say, that Dr. Newton ex-

cels as a writer of books for youth, and is im-

mensely "the children's teacher." Prof.

Scholar, of Belleville, is now engaged to

conduct the singing. Besides these, others

from the United States are expected. Brief

addresses will be made by the following:

Mr. J. A. MacPherson, Dundas; Mr. J. S. Hamilton,

Toronto; Mr. G. W. Givins, Hamilton; Mr. A.

MacPherson, Dundas; Mr. J. S. Hamilton,

Toronto; Mr. G. W. Givins, Hamilton; Mr. A.

MacPherson, Dundas; Mr. J. S. Hamilton,

Toronto; Mr. G. W. Givins, Hamilton; Mr. A.

MacPherson, Dundas; Mr. J. S. Hamilton,

Our account of the yacht race yesterday

was necessarily brief and to a certain ex-

tent incomplete.

As was stated in yesterday's issue the

Katie Gray, passing upward, had gained

time in replacing her stay-sail with a storm-

jib, which enabled them in advance to

leave her some distance further behind

and the Zetella, which had outpointed the

Emma to windward, to nearly close up the

gap. After this change was made in her

canvas, the yacht in question hauled rap-

idly to the north ahead, and so close were

she and the Surprise a little above Ferry

Point that they came into collision, both

sustaining some damage, the former to her

bow and the latter to her rigging. After

this the boats separated, and the Katie

Katie Gray first had slightly increased her

lead, the Peerless getting somewhat ac-

cording, and the Zetella, which had out-

pointed the Emma to windward, the leading

boat was still being 3.55 in advance,

having thus gained a little more time,

while the Peerless led the Zetella, which

which boat and the Surprise the race at

this time was most interesting, by nearly

## Town and Vicinity.

**HOMEWARD BOUND.**—The Kingston yacht left for home at 9 o'clock this morning.

**COUNTY COUNCIL.**—The next meeting of County Council will take place, according to adjournment, on Tuesday next at 2 o'clock p. m.

**BOARD OF EDUCATION.**—The regular meeting of the Board of Education for the month of October will be held in the Council Chamber on Tuesday evening.

**TEAT DRAWING ROOM SUIT** at Gibbard & Sons took four first class prizes, was bought yesterday by Mr. Thomas S. Carman, of this town. Gibbard's is the place to buy good furniture.

**POPULATION.**—The assessor's returns of the population of the town state the number of inhabitants at 9,712, or about 400 more than were returned by the assessors last spring, and a larger number than Belleville was ever credited with before.

**DRILL READING.**—The Rev. W. H. Walker, one of the delegates to the convention, will (D. V.) give a bible reading on Monday evening at 8 o'clock in the hall of "Daniel's Band." Subject, "The Love of God." Also the gospel meeting as usual to-morrow night at 8:20.

**THE RAILWAY GUIDE.**—The International Railway and Steam Navigation Guide for October, has been received. It has all the latest time tables of the Canadian and U. S. Railways and Steamship Lines. Without doubt it is one of the best Guides published. Chisholm & Co., Montreal.

**THE MARKETS.**—The provision market was well supplied to-day in all departments, and the attendance of buyers was very large. Receipts of grain were the largest of the season, with no change in prices, although in the Toronto market the wheat quota barley as "demoralized," and prices nominal at late rates.

**MIXING.**—The Kingston *Whig* says: "We understand that Mr. Creveling, the managing director of the Glendower company, has opened an iron mine on the farm of Mr. Morris, near Delia. Some thirty men will be employed. The ore will be shipped by way of the Rideau Canal to Kingston.

**DIOCESE OF ONTARIO.**—The Kingston *News* says: "We understand that the following changes are to be made in this diocese, viz.: the Rev. F. L. Stevenson, of Stirling, to Carrying Place; the Rev. H. M. Baker, of Carrying Place, to Tyndings; and the Rev. T. Stanton, of Tyndings, to Trenton, as assistant to the Rev. Canon Bleasdale."

**TREASURING MACHINE ACCIDENT.**—A telegram from Campbellford, Oct. 6, says: "A serious threatening machine accident happened in the township of Seymour on Tuesday last, by which a man named Edger Loucks, twenty-four years of age, lost his leg, having had it crushed in the cog of the machine in such a fearful manner that amputation was necessary."

**EDUCATIONAL.**—Hon. Adam Crooks, Minister of Education, is to visit here on Friday next. The hon. gentleman will attend the meeting of the South Hastings Teachers' Institute in the morning, and in the Town Hall at 2 o'clock p. m. will deliver an address on educational matters. The programme of the day is a very comprehensive one, and no doubt the attendance will be large.

**BELLEVILLE MANUFACTURERS ASSOCIATION.**—We notice that Messrs. G. & J. Brown, J. M. Walker & Co., and M. E. Rankin & Co., of this town, have been exhibiting agricultural implements at the shows at Trenton, Niagara and elsewhere in the district. The firms in question are second to none in the business, and their exhibits will tend to still further improve the high reputation of Belleville as a manufacturing centre.

**PROF. FOWLER.**—This gentleman gave his first lecture before a large audience in Metropolitan Hall last night, the subject being "Life and Health, as taught by Phenomenology." Mr. Fowler is well known in Belleville, and a good many of his old-time admirers were present to greet him. Although increasing years have told upon him, those who had heard him in former years were pleased to find him still vigorous and full of life. The lecture was interesting and instructive, and it is a large amount of valuable information, which was put in such a form that but few who were present can fail to remember all the chief points contained in the address. At the close of the lecture a little boy, son of the late Jas. Kennedy, Esq., and Mr. G. O. Beatty, Principal of the Ontario Commercial School, were philosophically examined, and the answers were mapped out for both subjects were generally regarded as tolerably accurate. The first few lectures will be given to-night on the same plan, and the concluding lectures on the same plan will be delivered on Monday

## MORNING DESPATCHES.

## RUSSIA INTENDS STRIKING A COUP

Troops Concentrated at the Frontier.

ENGLAND'S ULTIMATUM.

LONDON, Oct. 7.—It is reported that Russia intends striking a coup before winter sets in. A large force is now concentrated at Bessarabia. Romania now gives unrestricted passage to Russian soldiers going to Servia. Six hundred cavalry entered Servia on Monday.

A telegram from Constantinople to the *Standard* reports that the Russian army in the Balkans is so exasperated by the continued entry of Russians into Servia, that they have found it impossible to accept the terms of peace. The Sultan's demand that he would have been disposed of if he accepted them.

Lord Derby's despatch to Sir H. Elliot regarding the Bulgarian atrocities was issued at night. The British Ambassador is directed to demand a personal audience with the Sultan, to communicate Mr. Baring's report, demand reparation and justice, urge the immediate relieving of the distressed and helpless, and provide for the restoration of order, and give assistance to persons reduced to poverty.

**AFTERNOON DESPATCHES.**

LONDON, Oct. 7.—The *Sheffield Telegraph* to-day publishes the following: "In consequence of injury to the Sheffield trade by America's heavy protective duties, representations have been made to Earl Carnarvon, Secretary for the Colonies, suggesting that some import duty be retained in return for American produce both in England and her colonies. To these representations Lord Carnarvon replied on Friday that as he would not reflect the proposal of one which Her Majesty's Government could entertain.

A despatch to Brest's Telegram Co. from Constantinople says, the Porte's answer to proposals of powers was formally communicated to the ambassadors yesterday.

VIENNA, Oct. 7.—Though the Porte was on Thursday positively to give answer to the proposals of the Powers, there is, up to the moment of telegraphing this despatch, no information of this answer having been officially handed to the Ambassadors.

Sir Henry Elliot, on Thursday, presented his credentials to the Sultan. The position is therefore by no means excluded that Mr. Elliot's representations succeeded at the last moment in altering the Sultan's resolution, or, at any rate, in gaining a reprieve, which affords a chance of averting a rupture, which after the tenor of the Sultan's reply seemed all but certain. The Grand Vizier on Wednesday declared that the acceptance of the proposals was impossible, as it would be equivalent to the Sultan abdicating the sovereignty of three provinces. The respite which seems to have been gained may be used for finding a way out of the difficulty. The idea of returning to the original demand, and asking for the conclusion of a longer armistice, seems to have presented itself.

There are good reasons for believing that negotiations between Turkey and Montenegro have gone further than a renewal of the truce, and that there has been an approach between the two countries on the basis of a cessation of territory to Montenegro. The valley of the Zetta, near Polgorita, is mentioned as a point in this eventual concession.

CHARLOTTE, S. C., Oct. 7.—The *News and Courier* despatch from Columbia states that reports of the Deputy Marshals sent to investigate the recent collision between the whites and blacks at Ellenton had led Gov. Chamberlain to the determination to issue a proclamation ordering all white military clubs to disband, and to prohibit their arms and disband at once. In case of their refusing to do so, he will next proclaim the State to be in a condition of domestic violence, and will inform President Grant that all that effect, and call upon him to suppress it. Also that the Republican Executive Committee have issued an address to the people of the United States, which reaffirms the charges against the white people of intimidation &c., and appeals to the great American people for their sympathy and support. They are powerless, they say, to defend themselves against the aggression of their enemies, and powers to protect their persons, and to the general Government to rescue them from the hands of the very men who are again seeking to cap its foundations by new modes of attack.

NEW YORK, Oct. 7.—Seventy thousand pounds of gold coin and Russian coin was received at the U. S. Assay Office to-day, making a total of \$2,000,000. \$450,000 of American gold coin was received at the U. S. Treasury.

WILKESBARRE, Pa., Oct. 7.—The banking house of L. Meyers was last evening robbed of cash and bonds amounting to about \$2,000.

NEW YORK, Oct. 7.—Floodlighting. For lower lake and Middle State, the wind barometer, brisk and high went to north-west winds, diminishing in force to-night, cold and generally calm, with occasional showers with heavy frosts on Sunday morning. Cautionary signals continue on lower lakes.

"Yes," he said, "we are all of us striving for a subjective goal. Unconsciously, we are, but still we are striving. We lean over the verge of the infinite, belonging to grasp its mysteries, and lost in the light of its radiance. The answer to the question, 'What is the goal?' is, 'The goal is the goal itself, thoughtfully, but, John, would you mind my putting a brown patch on your forehead?'"

## Educational.

The Peterborough Schools have been put through a thorough system of grading by the Principal, Mr. Jeffers.

The thirtieth annual convention of the Quebec Teachers' Association will be held in Montreal on the 10th, 11th, and 12th October. The Public Schools of the Province and West have been invited by the French Commissioner to the Centennial Exhibition.

The South Simcoe *News* speaks in high terms of the High School system, including the new and recently adopted appendages, the Intermediate Examination.

Mr. W. H. Ross, barrister, of Winnipeg, has been appointed a member of the Board of Education for the Province of Ontario. Mr. Ross is a member of the Ontario Bar, and has held a first A provincial certificate, and served for many years as a School Inspector and County Examiner. The Board of Education can hardly do better than entrust the management of their school system to the hands of men who have an intimate acquaintance with the working of the school system.

The Halifax Office warns the Baptists of Nova Scotia that their refusal to affiliate Acadia College with the new University of Halifax will in all probability prove detrimental to their institution, in the opinion of college grants come to be revived. The only way of aiding denominational colleges is to pay according to results, and these can only be tested by some uniform scheme of examination. Such a scheme will now be supplied by the Provincial University, and if any of the existing colleges refuse affiliation, they may, by their refusal, place themselves at a disadvantage as compared with those who accept it.

The London School Board has been invited to the introduction of vocal music into the public schools of that city. The matter has been under consideration for some time, and the Board has been generally received from Trustees. There is no reason why this Province should not become through the instrumentality of its schools, as noted for the prevalence of good music among the people of Germany, where a great deal of attention is given to its cultivation in early life. The experiment has been tried in Toronto, and seems to work well. Too much cannot be said for the value of such a system of a teacher, who ought to be thoroughly competent as an instructor as well as a vocal artist.

**Wounds and Wores.**

It often happens when a person takes pains to correct the bowels, that although they seem to do their work, still the after effect, their griping and purging, is to cause an action, which leaves the bowels worse than before, and so with WIND COLIC, PILES, which are mild, yet effective, and never gripe, nor sicken.

# OUR HARVEST PSALM.

By MISS H. BARNES EGGERT.  
We have tilled the meadows with strong  
arms, and the sheaves of grain are  
stacked and the sheaves with arms strong  
and true.

# A BIG DRIVE.

Thirty dozen White and Regatta Shirts  
for \$1 each, manufactured by J. T. Short, Man-  
ufacturer of York State, and consigned to  
a house in Montreal who failed before the goods  
reached the house, and these goods are really  
worth \$2 each in the ordinary way.

# LINEN GLACE.

It is a scientific combination of several  
of the best articles known for laundry use.  
Combines readily with the Starch.  
Makes ironing easy by preventing the iron  
from sticking to the linen.  
Gives to all fabrics a perfectly  
fresh, bright appearance.  
Can be used in either hot or cold Starch.  
Brightens all colored fabrics.  
Is the best Linen Glace in all this  
country, such as Lawns, Muslins, Cambrics,  
etc., etc.,—increasing the stiffness of the  
garments.  
Infants clothing can be splendidly done up  
with "Linen Glace."  
All fabrics will keep much longer  
than when washed in ordinary soap, and  
will not adhere so readily.  
Try one agent and you guarantee your perfect  
satisfaction.

# A Secret of Beauty.

There is a secret in beauty. The longer  
I live the more entirely am I convinced  
of the fact. A thoroughly good complexion  
is the result of a healthy system. In moments  
of perfect activity everyone has a clear, or  
a glowing, or a healthy complexion. In  
moments of weakness, or of a disordered  
system, or of a disordered system, or of a

Daily Intelligence.

BEHAVIOR, TUESDAY, OCT. 10.

Town and Vicinity.

REMARKS.—The barometer remains steady with a breeze falling that has been for the last few days. No. 1 brings 70; extra 75. The receipts of barley are about 5,000 bushels a day.

NO MATCH.—As was generally anticipated, no match was made between the yachts *Proctor* and *Seymour*. Mr. May denied that he had offered two to one on the boat to the amount reported, and declined to make a match at such odds.

MARKET NEWS.—The schooner *Wm. Ellis* having loaded 10,000 bushels of barley for Toledo, shipped from Campbell & Brennan's wharf. The schooner *Wm. Ellis* will begin loading barley tomorrow at Campbell & Brennan's. The schooner *Wm. O'Brien* is waiting for a load.

ENTERTAINMENT.—The *Brampton Courier*, a very able Conservative journal, has been enlarged and otherwise improved. It affords us pleasure to note this evidence of a success which we are sure has been well deserved. May our country prosper on and prosper still further.

TEMPERANCE.—The delegates attending the meeting of the Catholic Temperance Union proceeded in procession to St. Michael's Church this morning, where a sermon was preached by the Very Rev. James Donnelly, V. G. The procession was small in number, but of a very respectable appearance.

WIND.—A day of tremendous vigor blew during the greater part of last night. Nothing to equal this has been previously experienced this season, the force of the wind being so great that travel on the streets was exceedingly difficult. No damage of importance is reported in town, but the wind must have wrought havoc somewhere. Vessels in the bay and on the lake must have had a rough night if they escaped other dangers.

FAMOUS LECTURE.—Prof. Fossard delivered his third and concluding lecture in the Metropolitan Hall last night. The audience was small, the lecturer's address was remarkably good. The strange coincidence there should be twenty-five cents and free. The subject of the lecture was "Marriage," the lecturer treating his subject in a thoroughly exhaustive manner, marked by his usual characteristics and ability.

PROSECUTION.—J. H. Meacham, Esq., Postmaster, received to-day a letter from his son, Rev. G. M. Meacham, Methodist Missionary to Japan, stating that he had arrived safely and well at his destination. The young man was pleasant, except on the last day, when a heavy cold was encountered. These favorable tidings will be received with pleasure by the Rev. gentleman's many friends here.

THE HARTLEY QUESTION.—The Oswego Board of Trade refuse to abdicate the imperial for the Winchester bid, as desired by the Toronto and other Canadian Boards, on the ground that the Winchester bid is the standard in the United States, and that the substitution of another standard for that in mineral water causes confusion in other markets up and down the country. They, however, offer to co-operate in an endeavor to secure a mutually satisfactory standard of inspection.

AN OUTRAGE.—It was reported to the police last night that some ruffian had pushed down Mary Long, an old and well-known vagrant, and that she had broken a tank. The officers on duty proceeded to the spot indicated and found the woman, who declared herself incapable of motion, and her belief that herp joint was broken, and she was put into a conveyance, and taken to the station, but no examination by Dr. Tracy, police surgeon, disclosed the fact that no bones were broken and no dislocation had taken place. At last accounts Mrs. Long was still unable to walk.

MICHAEL'S INTELLECT.—The character and tone of the meeting held last night presage well for the success of this laudable enterprise. The fact on which it is founded to establish it of a nature that will commend itself to every one. The plan adopted—definite measures by voluntary subscription—will secure the success of the enterprise. It is an important and necessary to equip an attractive popular library, reading room and gymnasium, and thus leave from the members' fees and the Government grants to defray running expenses and to acquire several donations. Before any are asked to avail themselves as members it is contemplated to raise at least one thousand dollars, which judging from the response already made will soon be done, as all who have been approached in the matter are thoroughly as one as to the desirability and practicality of the scheme, and have liberally extended their help. Another aid will come from the friends of social improvement, and the promise of social support.

THE YOMAMA MONUMENT.

The monument recently erected in the Cemetery in memory of the late Asa Yomama, a prominent citizen of Belleville, is attracting much of the public attention, from the character of the monument and the character of the man. The monument is in the New Brunswick Granite, a substance believed to be harder than the granite of the Alps, and is a fine specimen of a higher quality. The monument was completed and set up last week in the Belleville Cemetery. It is designed as a family monument, and is 10 feet high from the ground. The column rises to a height of 10 feet, the base being about 4 feet square and the next 3 feet. On this is inscribed the family name on four sides. Next to this comes the "prairie" base, 5 feet high and 10 feet wide. The column is inscribed with the name of the deceased, and the date of his birth and death. BELLEVILLE, THURSDAY, OCT. 12.

## Town and Vicinity.

**RYLE ASSOCIATION.**—A special meeting of the Ryle Association will take place at Hamby's to-morrow evening at 8 o'clock.

**CRUELTY CLUB.**—A meeting of the Belleville Cruelty Club is to be held at Hamby's to-morrow night for the election of officers and the transaction of other business.

**TEMPERANCE CONVENTION.**—The report of yesterday's proceedings of the Catholic Total Abstinence Union has not yet been received.

**PERSONAL.**—We had a call to-day from Mr. Boyle, editor of the *Irish Canadian*, Toronto, who was in attendance at the Catholic Temperance Convention just closed. Mr. Boyle is in fine health and spirits.

**NOTES.**—The *Kingston News* states that a prominent clergyman of that place recently referred in his sermon to the practice of a great many individuals of "posting servants to inform visitors that the 'day of the house' was not in. He denounces it as 'polite lying.' Would or would not the accusation be applicable to any ladies of our town.

**THE WEATHER.**—Chilly days and frosty nights have been a rule of late. Although much weather may remind the "old" inhabitants and his contemporaries of the "good old times" when we had June frosts and other cheering indications of Jack Frost's presence during eight months out of twelve, the season is not a bit more favorable than that season. Quite the contrary for Yenor promised fine weather for October, and we look for his prophecy to be fulfilled, he being previously proved wonderfully correct in his predictions.

**YACHTING.**—The Kingstons, are anxious to have another yacht race with Belleville, and propose to hold a regatta on the lake in the month of November. It will be asked to compete. Conditions as usual, except that shifting ballast will be allowed. Mr. Roy states that if the race comes off the *Perla* will take part in it, but the season is so far advanced that it is not probable that any of the other craft owned here will participate. The *Katie Gray* certainly will not, she having been stripped preparatory to being hauled out for the winter. We much admire the pluck of the Kingston yachtsmen.

**GORDON'S BRIDGE.**—As will be learned from the report of the County Surveyor, the important work, which was done under Mr. Francis' direction, has been almost completed. The labor of putting in the long span was one of great difficulty, the men necessary working in the water, which is rapid, deep and cold. By great patience and perseverance, however, the work has been satisfactorily accomplished. The bridge which is a credit to the County Surveyor, who planned it and superintended its construction, has been erected, owing to the energy with which the work was pushed forward, in a shorter time than was anticipated. It will be opened for traffic in a few days, of which notice will be given to the public.

**EDUCATIONAL.**—The visit of Hon. Mr. Crooks, in his official capacity as Minister of Education, which is to take place to-morrow, will no doubt be highly interesting to all who take a proper interest in educational matters. The South Hastings Teachers' Association will meet in the Union School building at 10 o'clock a. m., when an address will be presented by the Minister of Education. Interesting topics will be discussed until noon, and at 2 o'clock p. m. a gathering will take place in the Town Hall, when Mr. Crooks will deliver an address on education, following which a variety of subjects will be discussed by members of the Association. The programme is an interesting one, and no doubt the meeting will be largely attended. All interested in education are invited to attend.

**PURE BALSAM AS FOOD.**—A gentleman of Montreal, who has given some attention to vegetable food, lately entertained a few friends at lunch. The chief article of diet was the common puff ball—*Lyogordium Giganteum*. It was found upon inquiry, when it abounded, and was 34 inches in one diameter, and 74 inches in the other. The flesh was pure white, like the most delicate *blanc mange*. The flavor is more delicate than mushroom, and the texture more jelly-like. Some of the size may be gathered when it is stated that six gentlemen lunched from this fungus. The dishes were all of the most delicious appetizing flavor. Dr. Edwards, the food of the Lyogordium, a most delicious and nutritious article of diet. It should only be eaten when of pure white, and in eating puff balls and other fungi, the

## MORNING DESPATCHES.

Election returns from West Virginia show that the Legislature will be about two-thirds Democratic, this securing for them two United States Senators.

A grand reception was given in New York to General Newton last evening.

## Afternoon Despatches in Brief

At Pittsburgh, Pa., this morning at 8:45, a terrible explosion occurred at Zieg & Co's Mills, which was attended with great loss of life. The boilers in the mill exploded, and that building and more than half of the rolling mill were demolished. A large number of employees were at work, and it is impossible to tell how many are buried in the ruins. The greatest excitement prevails. The buildings caught fire, and it has not yet been extinguished. So far ten dead bodies have been taken from the ruins.

Latter returns from Indiana leave the election of Governor in doubt. The Republicans have a majority in the Legislature.

A Paris correspondent of the London Times says: An account of an interview with an officer in the Egyptian army who gives circumstantial details of horrible events which have taken place in Abyssinia during attempts of Egypt to crush the Abyssinians. An officer states that there have been two known expeditions. The first, which was despatched in October, 1875, consisted of 4,000 men, was surprised at a detail of Goumal, and massacred to the last man. The second expedition, composed of 6,000 men, started in January last. It, also, in Abyssinia, was surprised at a detail of Goumal, and massacred to the last man. The Abyssinian King then disappeared into the interior, and according to the latest reports has requested what he did in the details of Goumal and Goumal again crushing an army of Egyptians, but the details of this as of the other expeditions are garbled with great secrecy.

The difficulty between the cotton operatives and the owners still continues. The employees are to have a meeting in Manchester on the 17th of October. If the masters adhere to their present position, a lock-out of 70,000 operatives will result. At a recent battle between the Montenegrins and the Turks, the latter were routed and 15,000 killed.

WASHINGTON, Oct. 12.—Probabilities.—For the Middle States, falling barometer, winds shifting to easterly and southerly and cold, clear weather, succeeded by rising temperature.

## MORNING DESPATCHES.

Election returns from West Virginia show that the Legislature will be about two-thirds Democratic, this securing for them two United States Senators.

A grand reception was given in New York to General Newton last evening.

## Afternoon Despatches in Brief

At Pittsburgh, Pa., this morning at 8:45, a terrible explosion occurred at Zieg & Co's Mills, which was attended with great loss of life. The boilers in the mill exploded, and that building and more than half of the rolling mill were demolished. A large number of employees were at work, and it is impossible to tell how many are buried in the ruins. The greatest excitement prevails. The buildings caught fire, and it has not yet been extinguished. So far ten dead bodies have been taken from the ruins.

Latter returns from Indiana leave the election of Governor in doubt. The Republicans have a majority in the Legislature.

A Paris correspondent of the London Times says: An account of an interview with an officer in the Egyptian army who gives circumstantial details of horrible events which have taken place in Abyssinia during attempts of Egypt to crush the Abyssinians. An officer states that there have been two known expeditions. The first, which was despatched in October, 1875, consisted of 4,000 men, was surprised at a detail of Goumal, and massacred to the last man. The second expedition, composed of 6,000 men, started in January last. It, also, in Abyssinia, was surprised at a detail of Goumal, and massacred to the last man. The Abyssinian King then disappeared into the interior, and according to the latest reports has requested what he did in the details of Goumal and Goumal again crushing an army of Egyptians, but the details of this as of the other expeditions are garbled with great secrecy.

The difficulty between the cotton operatives and the owners still continues. The employees are to have a meeting in Manchester on the 17th of October. If the masters adhere to their present position, a lock-out of 70,000 operatives will result. At a recent battle between the Montenegrins and the Turks, the latter were routed and 15,000 killed.

## Teachers' Convention.

A meeting of the South Hastings Teachers' Convention, convened for the purpose of meeting Hon. Adam Crooks, Minister of Education, was held in the High School, Belleville, on the morning of Friday, 10th inst.

The hour of opening was at 10 o'clock a.m., but Mr. Crooks had not arrived, and had an hour was spent in waiting for him. He having failed to arrive at that time, business was commenced.

There was a considerable attendance of teachers, the females being decidedly in the majority. A few ladies were present, including Bishop Carman, Mr. Burrows, Inspector of Public Schools, Lennox and Addington, Mr. Mackintosh, Inspector of Public Schools, Hastings, Mr. Hastings, Mr. P. H. Bell, and Messrs. M. Sawyer and Thos. McGinnis.

The chair was taken by Mr. Johnston, President of the Association.

The first subject was "High Grade Third Class Certificate." On this Mr. Howell, of Trenton, made a series of resolutions, to the effect that two grades of third class certificates be created, namely grade A, good for five years and grade B, good for three years.

In an interesting address Mr. Howell, dwelt on the importance of education as a principal element of national greatness.

On motion, Mr. Kefau was appointed to the chair, and Mr. Robertson as Secretary.

Messrs. Alex. Robertson and J. S. Fowler were appointed scrutineers, and the election of Directors was proceeded with.

Mr. J. S. Fowler introduced a By-law providing for the forfeiture of all unpaid stock, provided it be not paid up within two months after the Secretary has notified the parties in arrears.

The By-law was passed and numbered. The Secretary then read the offer of Mr. Brown for the construction of the road, as printed in our County Council report.

The scrutineers reported the following gentlemen elected as Directors: Thos. Kelso, Hon. Robt. Read, Jas. Brown, M.P., Dr. Boulter, M.P., A. Diamond, J. S. Fowler, H. M. Fowler, Wm. Doxter, J. Starling, Belleville; Dr. Boulter, M.P., P. P. Stirling; Jas. Fowler and H. M. Fowler, Hastings; Messrs. E. O. Bickford and H. Cameron, M.P., Toronto; and A. S. Brown, Belleville, were also present.

On motion, Mr. Kefau was appointed to the chair, and Mr. Robertson as Secretary.

Messrs. Alex. Robertson and J. S. Fowler were appointed scrutineers, and the election of Directors was proceeded with.

Mr. J. S. Fowler introduced a By-law providing for the forfeiture of all unpaid stock, provided it be not paid up within two months after the Secretary has notified the parties in arrears.

The By-law was passed and numbered. The Secretary then read the offer of Mr. Brown for the construction of the road, as printed in our County Council report.

The subject was discussed by Mr. Irwin, Prof. Macdon, Mr. Mackintosh, Mr. Burrows, Prof. Dawson, Prof. Bell, Mr. Howell, Mr. Hicks, and Bishop Carman, and the resolutions were adopted.

Discussion followed the revision of the programme, and the Convention adjourned until 10 o'clock p.m.

## Sabbath School Convention.

### THIRD DAY—MORNING SESSION.

THURSDAY, Oct. 12.

The Convention assembled at 10.30, and was opened with devotional exercises.

A letter was read from E. C. Wilder, President of the New York City Sabbath School Teachers' Association, expressing hearty sympathy with the Convention.

Rev. W. Millard, General Secretary, was directed to draw up a suitable reply and forward the same to Mr. Wilder.

Mr. Jas. McDougall, of Toronto, then gave a practical illustration of Sabbath School teaching by instructing a senior class.

The illustration was very interesting. The choir having sung "Pae Me Not," and the Rev. Mr. Dobbs having pronounced the benediction, the Convention adjourned at 10.30, for a visit to the Institution for the Deaf Dumb.

The Institution was visited as arranged, the gentlemen walking whilst the ladies rode in carriages furnished by the Local Committee. The members of the Convention were then taken to the Lecture Room, where a very satisfactory exposition of the method of instruction pursued was given, to the entire satisfaction of the large number who attended.

At the close of the proceedings a vote of thanks to Dr. Palmer and the officers of the Institution was moved by Rev. A. H. Munro, seconded by Mr. Barras, and carried with acclamation.

The visit which was very much enjoyed, being over, the visitors returned to town.

### AFTERNOON SESSION.

The Convention reassembled at 2.45, the church being crowded for the day.

The General Secretary read a copy of his reply to Mr. Wilder, of New York.

Rev. Dr. Newton delivered a sermon to the Sabbath School children. The text was taken from Prov. 11th chapter and 28th verse, "To him that seeth righteousness shall be a sure reward." A more eloquent, practical or appropriate discourse has seldom or never been heard here.

Mr. S. A. Gardner, Belleville, also spoke in the afternoon, having had not proceeded far before Hon. Mr. Crooks entered the room.

Mr. Charles Saenger, Secretary of the Institute, then read the following address to the Minister of Education:

To the Hon. Adam Crooks, M.P., Minister of Education, of the Province of Ontario.

DEAR SIR,—We, the members of the South Hastings Teachers' Convention, have the honor to acknowledge the receipt of your letter of the 10th inst., and in reply to inform you that we have accepted of the invitation of the Minister of Education, to send a representative of our Convention to the meeting of the Teachers' Convention, to be held at Belleville, on the 10th inst.

It was upon it. Should we treat the scriptures with less reverence? He has written some judicious little readings which were got up by people who had not given proper attention to them. To get up a good little reading required as much labor and care as it did to write a sermon. He proceeded to illustrate by giving a specimen reading in different manners, and in the course concluded an interesting half hour's exercises.

The President expressed the resolution expressing sympathy with the Catholic Total Abstinence Union had miscarried. The resolution had been received this morning, and sent a courteous reply.

Dr. Newton then proceeded to deliver the first portion of his address. All book the Teacher's Work and How to do it. The teachers work had been considered in the first part of his address, and the speaker, and he would this evening consider the second part, which was to be done. Before proceeding to discuss this branch of the subject, the Rev. Dr. gave several illustrations of the first division of his subject, Lord St. John, the first of Christ's noblemen in England, had been brought to a knowledge of the truth when a child by a servant girl whose heart was concentered to the Lord.

Truly, piety and sympathy were, to the instruments used for instruction. The truth, not only something correct, but the truth as it is in Jesus. Who would put any limits to the power of this truth? Several anecdotes illustrative of this were given, all of which were highly interesting.

We were to follow the truth with prayer, which would, when brought to bear on the souls of the children, expel all the delusions of Satan. There was power these instrumentalities to secure the conversion and consecration of the children. With sympathy these were all sufficient. There was nothing more needed in their work as Sabbath School teachers than the loving sympathy felt by Jesus. With these powers what a hold they were able to get upon the hearts of their scholars. If they wanted to be successful in their work this was their way, said God gave them grace to do their work thus, they would certainly succeed in bringing many souls to the Lord.

The learned Dr. conducted a very able address amidst applause.

"The Leadeth Me" was then sung, and a portion of scripture was read by the President.

Mr. Hughes then announced that \$463 had been subscribed last night, exclusive of collections, including to-day \$836 had been subscribed.

During the taking up of the collection Prof. Whelan played a fine voluntary. Prof. Sherwin then sang "My Ain Country."

The choir and congregation sang "Land of Rest."

Mr. Hague led in prayer.

The Committee on Resolutions reported resolutions in favor of County, City and Township Institutes for the training of teachers; of praying classes for advanced scholars; of no names in work; of the holding parents' institutes as a means of home culture; of thanks to Dr. Newton and Prof. Sherwin for their valuable services; of thanks to the people of Belleville for their hospitality to the railroad and steamship lines; of thanks to the church, to the Local Committee, to the boys for their services, to Mr. G. L. Orme, of Ottawa, for the use of the organ on the platform, and to all others who had assisted them in their efforts, or ministered to their comforts. These resolutions were adopted unanimously.

"Going Home" was then sung by the congregation.

Farwell addresses were then delivered.

Rev. Mr. Rose, who spoke first, spoke of the pleasures of the Convention, and said that it would cause those who attended it to go forth to work better teachers, better pastors, better citizens than before.

Judge Dean, of Lindsay, spoke of the benefits of the Convention to Society. It resulted in an intellectual quickening. The last Convention held here had led him to engage in Sabbath School work. Scores of other instances had no doubt occurred throughout the country. Who could tell, in fact, what had been its effects?

Rawdon Fair and Cattle Show.

This show which was held on the 6th

inst., was a decided success, there being

about 200 entries. The display of

cattle, sheep, and swine, was

superior to anything ever before

exhibited in this township. The

display of farming implements was

good. Messrs. G. A. Brown, of Belleville,

and J. H. Wilson, of Hastings, were

on hand with a number of new and

agricultural implements, consisting of their

celebrated combined Seed drill and Broad

caster, "Vice Self-dumping" sick, Potato

digger, Plough, &amp;c.

The Agent L. D. Sawyer &amp; Co., was

also on the ground with a fine display of

agricultural implements.

The ladies' department was well represented.

The display of Roots, Vegetables and

Seeds, was not as good as in former years,

but much better than could have been ex-

pected, when the unfavorable season is

taken into consideration. The following

is the price list.

WEDDED.

Some quick and witty words we said, And then we parted, like the wind, Swam through a sudden sea of gray, A chill fell on the pure air, Life's best and happiest hours were done, Friendship was said.

Miscellaneous.

Never be too opinionated to accept good advice, by whomsoever offered. Yet you must think for yourself. It is well to listen to the experienced thoughts of others, and it is an agreeable pastime to give expression to your own thoughts. But when of olden times, when you have only, well to do this, for it will assist in curing the ailments of the world, and in time make you a better man and woman. You will thus gain from the experience of others, and will transmit to the rising generation, and the result will be that you will do your share in the glorification of our race.

KEEPING HIS WORD.

"Only a penny a box," he said, "I'll give you up to ten pence worth, and if he shrinks from the wicked job, let the boy whine about it." "Oh, sir," he exclaimed, "you cannot know," "And he brushed from him the false of a man, 'Till he had seen that night have to fall." "Or I think—I think you would take them all."

THE PRINTER'S DREAM.

A printer sat in his office chair, His hands were pale and his head on a thread, While his face looked weary and worn with age. He was thinking of business days, And before him lay his weekly sheet, And he was thinking of his family, And he was thinking of his friends, And he was thinking of his life, And he was thinking of his death.

RELLVILLE, TUESDAY, OCT. 17,  
1876.

### THE LEGISLATURE.

In the times—no so very distant—when the Grile party, in opposition, it was a favorite grievance of theirs that the Legislature was not summoned early enough in the season. But in this, as in all other matters, they, on attaining power, violated their constructive pledges, by commencing the session quite as late as their predecessors; and now we have the astounding announcement made in the Grile party, that on or about the 10th of January for 1877, it is quite certain that the Legislature will not be convened until after the close of the municipal elections, in which a large majority of the members are deeply interested. As the Dominion Parliament will probably meet not more than one month later, the result will be that comparatively little attention will be paid to the business of the Local House, which will be dwarfed in comparison with those of the larger and more important body, and lost sight of to a very large extent. Such a proceeding is an outrage and an insult, and it is not to be permitted to pass without all events an attempt on the part of every honest journal in this province to prevent its consummation, by compelling Mr. Mowat to call the Legislature together at the usual time, so that a proper amount of attention may be devoted to its proceedings, which can then be brought to a close before the Dominion Parliament assembles for the dispatch of business.

What is the reason for this postponement of the meeting of the Legislature? It is asked on all hands. The semi-official organs which make the announcement endeavor to supply one, but are able to advance nothing better than the flimsy excuse that the work of consolidating the statutes has not been completed! This may be an important matter—doubtless it is—but we do not regard it as the true reason of the extraordinary delay in calling the Legislature together. Narrow minded and cravenly as Mr. Mowat undoubtedly is, we very much question his magnifying such a work as the consolidation of the statutes—labor the conclusion of which might be deferred until another year—to so great an extent as the case were if it were the real reason of the postponement referred to. It is quite evident that there is some other and more important reason, underlying the little Premier's action—probably there is something to come up in the Legislature upon which it is not desirable that light should fall very clearly. The surmise may be uncharitable, but people who know the record of the politicians who at present hold the reins of power in Ontario will not be apt to come to any other conclusion.

The only way for Mr. Mowat to clear himself of the suspicion which now attaches to his action is to reconsider his intention and to follow the advice of his faithful supporter, the Hamilton Times, by appointing an earlier date than he had resolved upon, and by a formal proclamation, has been issued announcing it.

Falling thus the people will defeat any sinister object by paying strict attention to the proceedings of the Legislature than heretofore, and holding the Ministers to the strict accountability for any misdeeds which they may be guilty during the session.

**CORRECTION.**—The mistake was made in an article—our yesterday's impression of attributing to the Globe's certain extract referring to Lord Dufferin's action in proposing Parliament in 1876. Having no desire to misrepresent, we make this correction, the leading Grile organ, if not so bitter as some of its contemporaries, having been quite as pronounced in its expressions in the matter.

**"Doc." DAVIS.**—The Toronto Telegram says:—"A Kingston correspondent says that 'Doc.' Davis is credited with a corking stirring clothing store, at which business he appears to be a very awkward hand. His wife was running a sewing machine. She is a handsome woman, says the correspondent, and has managed to enlist the sympathies of a great many Kingston women by her be-half, much after the fashion of Grace Marks, by working fancy shippers for the husbands got up for the conversion of the interesting leather king of Timbuctoo."

**EXTENSIVE BURGLARY.**—The premises of Mr. LAUREN, pawnbroker, Montreal, were entered on the night of the 10th inst., by burglars who opened a safe, and proceeded directly to the safe, which they also opened with false keys, and extracted watches, jewelry and diamonds to the value of \$18,000 to \$20,000, and a large quantity of drawers, besides several boxes, \$500 in 16 and \$10 bills, and a \$200 bill, in the Police Bank, and \$40 in silver, also life and fire insurance policies. A very large quantity has been offered for sale to the thieves.

**THE CANADIAN PACIFIC.**—The Ottawa Citizen says:—"It is understood that Messrs. Macdonald & Kane have formally refused to enter into contract 15, Pacific route, unless guaranteed a certain fixed date at which Sifton, Ward & Co., will finish their work on section 14. It appears that the time for completing this work has been extended one year, and the extension was not mentioned in the specification of 15, thus adding about 25 per cent. to the amount for which the work could be accomplished, had the original arrangement for section 14 been maintained. The Government, it is said, has refused to make any guarantee of change whatever."

### TOWN COUNCIL.

MONDAY, OCT. 16.

The Council met at 8 o'clock.  
**PRESIDENT.**—His Worship the Mayor, Messrs. Lushington, Lattin, and others, were present. Messrs. Hargreaves, S. H. Hamby, Holden, Fabry, Batty, and J. H. Hamby.

The minutes of last meeting were read and approved.

#### PETITIONS.

The following petitions were read and referred to their appropriate committees, for an increase of salary to the assessors for 1876.

From J. T. Wether and others, for a sidewalk on Bailey St., Coleman Ward.

From W. Vias, for relief.

From James Manley and others, for a sidewalk and drain on Stone St., in Coleman Ward.

From W. B. Blocker and others, for the taking down of the bridge over the Grand Trunk on the Junction road, and substituting a level crossing.

From Wm. Fitzpatrick and others, for repairs to Campbell St.

From Susan Dune, for remission of taxes.

From Wm. Tennant, for the cutting of a channel to prevent water from the street.

From James Lewis, for remission of taxes.

From Thomas Wilson, for reduction of taxes on property destroyed by fire.

From Dr. Lattin, for alteration of assessment and to be heard before the Court of Revision.

From Geo. Denmark, for reduction of taxes on the Junction road in Murray Ward, and alteration of wrong assessment on office.

From the Grand Junction Railway Company, as follows:

**GRAND JUNCTION RAILWAY COMPANY,**  
Belleville, 16th Oct., 1876.

To His Worship the Mayor and the Members of the Town Council of the Town of Belleville:

**GENTLEMEN.**—The petition of the Grand Junction Railway Company sheweth as follows:

That notwithstanding former unsuccessful applications have been made by your petitioners for your honorable body for further aid towards the completion of the Grand Junction Railway, yet your petitioners are in hopes, in consequence of the facts and reasons herein after stated, which further aid will be no longer refused.

In addition to what has already been brought before your honorable body, your petitioners beg to state that they have (since the last meeting of your honorable body) been endeavoring to obtain a contractor willing to undertake the construction of your petitioners' Railway with the present of the Company, but without success.

The withdrawal of the Stanley offer is compensated for by the offer of Alex. S. Brown, Esq., received by the Board at their last meeting, which is as follows:

Belleville, October 11, 1876.  
To His Honor, Esq., President Grand Junction Railway.

With respect to the construction of the Grand Junction Railway, I beg to propose as follows:

1. That the Town of Belleville will give a bonus of \$50,000 to the County of Hastings in settlement of the dispute with them, \$20,000 the Township of Deseronto, \$20,000 the Township of Deseronto, \$10,000 in addition to the bonus already granted to the County of Hastings, and \$10,000 to be paid to the Belleville bonus.

### FALL ASSIZES.

RECORD DAY.

TUESDAY, OCT. 17.

**CIVIL CASES.**—*White v. Adams*—Action on contract to reconvey the amount due on a mortgage, together with interest. Verdict by consent for plaintiff; for \$1,828.20. N. B. Hargreaves, J. H. Simpson for defendant.

**TURKEY AS BEQUEST.**—*Ejection*—To obtain possession of Lot 25 in the village of Frankford. The plaintiff claimed title by deed made by the Treasurer and Wardens of the County of Hastings, dated Jan. 21st, 1871, registered 2nd February, 1871. Defendant claimed title by a prior deed from E. Miles. It appeared the Lot was returned to the County Treasurer on the 20th Sept. 1867 for 57 cents back taxes for the same year, and in the year 1868 for \$1.07 back taxes, and in the year 1869 for \$1.81 back taxes, and was sold on the 16th Nov. 1869 for \$4.06 back taxes and costs. When Mr. Turley purchased the lot. After argument by Counsel, his Lordship rendered a verdict for plaintiff, stating the returns made by the Township, Clerk to the County Treasurer were defective.—*Dougal & Clute* for p/lff, *Hen. L. Wallace* for def.

**WAYS AND MEANS.**

Council again went into committee on Ways and Means, Mr. Smith in the chair.

The Street Surveyor was ordered to make repairs in accordance with Mr. Tennant's petition, and to lay a new sidewalk in front of Mr. Robertson's block, Front Street.

Mrs. Dana's petition for remission of taxes was referred to the Court of Revision, with power to act.

Committee rose and reported.—Adopted.

**BY-LAWS.**

Council went into Committee on By-laws: Mr. Pope in the chair.

Mr. Henderson moved the second reading of the By-law reinvoking the control of the Police in the Council. He did so, he said, by desire of the Commissioners themselves.

The By-law was read accordingly.

An amendment to the second reading of the By-law to regulate the storing of gunpowder.

The By-law provides against the storing of more than 25 lbs. of gunpowder in a retail store, or 50 pounds of gunpowder, or 10 pounds of dynamite within any building in town, except in a properly constructed magazine, distant at least 200 feet from any other building or street. A penalty of not less than \$10 nor more than \$50 is provided for infraction of the By-law.

Mr. Pope said he had spoken with Mr. Glass, who said the proposed By-law would be prohibitory of the sale of explosives in town, as the quantities were not sufficient to keep in stock.

After some conversation the By-law was read a second time.—Adopted.

Council rose and adjourned, and the above By-laws were finally passed and numbered.

**MILL MEANS.**

Mr. J. H. Hamby moved for Mr. Patterson, who was absent, that Messrs. Rathbone & Son be compensated with \$500, as they would assume liabilities to resume their business on Mill Island.—Carried.

**OBSTRUCTING THE STREETS.**

On motion, the Chief Police was instructed to notify all persons to refrain from obstructing the sidewalks.—Carried.

**WATER SUPPLY.**

Mr. Fabry stated with reference to the supply of water for Church Street, that he could not see his way clear to incur the necessary expense. Mr. Henderson, in reply, stated that the gas works had a plan which seemed feasible, which would entail an expense of \$100.

Mr. Lattin stated that Mr. Robertson was prepared to furnish the street with a supply of water for \$100. Water was much needed, and he thought the Council ought to take up the matter and grant the small sum.

Mr. Henderson said water is getting needed, but he did not believe in frittering money. What he wished was a system of water works, to which we must come at last. Would it not be better to husband their resources in this view? Either that, or pass a comprehensive measure for the bringing of water from Sunset Lake for the supply of the whole town. However, if the Council wished the matter, he would not oppose it.

Mr. Lattin urged that that part of the town pay a good deal of taxes, good, it was simple justice that they should get a supply of water.

Mr. J. H. Hamby agreed with Mr. Henderson's views, and declared himself in favor of water works. However, a supply of water could be procured for \$100, and he believed \$100 could be profitably spent in the work proposed. He moved the Council into Committee on Ways and Means.

Mr. Petrie urged that the tank be placed at the corner of Church and Dundas streets. He believed that a better supply could be procured from the spring at the distillery.

Mr. Lattin said probably Mr. Petrie was aware that the water from the distillery could only be procured at a very high price.

After some further discussion the Council went into Committee on Ways and Means.

Mr. Henderson in the chair.

Mr. Lattin moved, seconded by Mr. J. H. Hamby, that the Chairman of the Fire, Water and Gas Committee be authorized to enter into arrangements with Mr. Robertson for the erection of the tank on the corner of Church and Dundas streets, provided the expense does not exceed \$200.—Carried.

Committee rose and reported.—Adopted.

**AN ORDINANCE.**

The Solicitor read his opinion re Rathbone agreement for island extension, in which he holds that an action would lie against the Messrs. Rathbone for failure to fulfill their contract with the town, and that the damages could be shown, only a verdict for nominal damages could be obtained.

**THE ESTATES.**

Mr. J. H. Hamby moved that when the Council adjourns, it stand adjourned until Monday next. He had resolved not to bring down the estimates until after the By-law now in force is voted on. If the By-law is not carried, some \$200 will have to be provided for this year. As the succeeding generation would have the benefit of the proposed extension, he could not see why there should be any objection to the By-law, which would cause no pay now what ought to be extended over twenty years.

Mr. Carr, agent for Messrs. Holden & Co., publishers, exhibited a specimen album, such as the firm propose to publish for this County.

The Clerk said it was necessary to give notice of the first sitting of the Court of Revision, which is by statute on the 24th inst.

The Mayor was directed to give the necessary notice.

Council adjourned until Monday next.

## Daily Intelligence.

BELLEVILLE, SATURDAY, OCT. 21.

## Town and Vicinity.

**TOWN COUNCIL**.—An adjourned meeting of the Town Council will be held on Monday night.

**IN WINTER QUARTERS**.—The steamer *Empress of India* has gone into winter quarters at Pictou.

**ARRIVED**.—The steamship *Scotland* (Temperley line) arrived at Father Point on one o'clock on the 21st inst.

**CHARITY CHURCH**.—Rev. John R. Jones, of the church of Harrow, will officiate in the discourse to-morrow at 3 o'clock.

**A LONG CARROT**.—Mr. R. Pashley, of Thurlow, left in our office this morning a carrot (grown on his place) which had reached the great length of 20 inches.

**COCK OF REVOLUTION**.—The Court of Revision will hold its first sitting to hear appeals against the assessment for 1877, in the Hall on Tuesday evening at 7:30 o'clock.

**A PROCESSION**.—Chap John had a procession, headed by a brass band, this morning in honor of his removal into his new store. Chap John is a liberal advertiser, and does a correspondingly large business.

**RIFLE MATCHES**.—On Tuesday and Wednesday the matches of the Hastings Rifle Association will take place. On Thursday the 2nd Battalion Rifle Club will hold their annual meeting. All the Hastings Association matches are open to all comers—military and civilians.

**PERSONAL**.—The *Hamilton Times* says: "Mr. G. E. Peirce, who for many years kept a clothing store on James street, has left the city to take up his residence in Belleville. His numerous friends will be glad to hear of his prosperity. His jolly manner will be much missed among his associates in the city."

**THE GRAIN MARKET**.—Barley was steady to day at recent quotations, transactions being chiefly in No. 1 at 73c and No. 2 at 63c. There was no change to report in other grains. Receipts to-day were very heavy—probably the heaviest of the season. Shipment is being made with all possible despatch, but the elevators are kept well filled by the large receipts.

**THE WEATHER**.—Vernor was right, it now turns out, in his predictions, as the fumes of the weather during the greater part of the week now closing has been remarkable. Bright, balmy days with light frosts at nights have been the rule, but last night there was no frost, in place of which we had a moderate shower of rain. This weather seems likely to last for some little time, as the 200 miles of other knowing creatures have not yet retired to their winter haunts.

**GRAIN SHIPPERS**.—The Farmers' Warehousing Company have loaded the schooners *Nellie Sherwood* and *Scud*, with about 15,000 bushels of barley, in the past two days, and the *E. G. Bonfield* is ready for loading. The schooner *Plumtree* will take 10,000 bushels of barley from Campbell & Co's, and the barge *Martin* is at Presty's storehouse loading 20,000 bushels of barley. Shipments of barley to-day aggregate 89,240 bushels against 72,915 to same date last year, when the shipments were the heaviest ever known.

**DIED FROM LOCK-JAW**.—Recently a daughter of Mr. James Owens, farmer, residing about four miles from Warkworth, whilst running over to the barnyard ran over in her foot between the large and second toe. She got it pulled out and ran around the same as usual, until the end of the week, when she complained of being sick; nothing serious being expected, she received no special notice, until Monday, when she appeared worse. Dr. Bogart was called in, but it was too late for medical aid, as the child died next morning from lock-jaw.

**BARLEY INSPECTION AT OWINGO**.—The Owingo Police made a note of warning in connection with the shipment of barley to port other than Owingo owing to the unsatisfactory nature of the inspection at that point. It "would it not be well for our commission on barley is driving trade away from Owingo?" The answer to this question must be in the affirmative, and it is safe to say that unless the system of inspection is changed at the port to which the Owingo Police will lose a great deal of trade, which will be transferred to other ports.

**FORCED TO YIELD**.—The Napance Town Council, which some weeks ago refused to have the streets of that town lighted with gas, have been obliged to yield to public opinion. The *Bozzy* says: "The

Town Council at its last session, with commendable liberality, located thirty gas lamp posts in various parts of the town, where necessity seemed to dictate the desirability of their location. The contract for their erection has been given to Mr. Angus McLeod, at 25c per foot, which, considering the quality of the work, is a very low price. This, taken together with the fact that the lamps are furnished with gas and kept lit at all necessary times, at least at 7c less than is done in any other town in Canada, is a matter upon which the town may be congratulated."

**EXEMPTIONS FROM TAXATION**.—A contemporary states that some time ago a committee of the Toronto City Council appointed for the purpose, sent different municipalities in this province asking for their co-operation in an effort to induce the Legislature to abolish exemptions from taxation. Replies from a large majority of them have been received, and the unanimous opinion is in favor of abolition. Petitions on the subject will probably be sent to the Legislature at the coming session, and a change in the law regarding taxation will no doubt be asked.

## England's Policy Disclosed.

## TO OCCUPY CONSTANTINOPLE WITH 80,000 MEN.

## A HERALD SPECIAL.

NEW YORK, Oct. 21.

*Herald* London special says, the policy of England with regard to Turkey is now disclosed. At a meeting of the British Cabinet on Thursday night, it was resolved that the invasion of Turkey by the Russians shall be the signal for the occupation of Constantinople by 80,000 men, and the movement of the whole fleet of ironclads now in British Bay to the Golden Horn. To provide for such an emergency, transports will be sent, carry troops of regulars to Malta, where enormous quantities of military stores and provisions have been accumulating for months past. Should the non-belligerent powers, such as Germany, Austria, and France, object to this course, Britain's policy will be the occupation of Egypt. This course is rendered imperative by the vital importance to Britain of the Suez Canal. Egypt would fall an easy prey. Some prominent Englishmen are sanguine enough to say that the Khedive would be very willing to hold his title as viceroy of Egypt, and would be much the same as the Royal princes of India.

The command of the British troops in the East has been assigned to Major-General Sir Charles Durbaniest, an experienced Indian officer.

The *Herald's* correspondent says the public declaration of a policy of abstention is but a mask assumed for the present, and a policy that will prove equally effective to England in the event of a Russian invasion of Turkey.

It is also stated that 150 British half-pay officers have applied to the war office for permission to enter the service of Turkey, positions having already been offered.

## THE EASTERN QUESTION.

## Result of the Livian Council.

## GERMANY IN FAVOR OF A COMPROMISE.

## RUSSIAN WAR PREPARATIONS.

## A Levy of Greek Forces.

LONDON, Oct. 20.—There is nothing in this morning's news to strengthen the view that Russia's intentions. The London journals editorially seem inclined to abandon all hope of the preservation of peace between Russia and Turkey. The weather has been contrary, except the opinion that all the Powers of Europe, including England, are equally interested in and responsible for Russia's actions in consequence of the failure of their joint efforts at Constantinople, and that it is unjust to suspect Russia of following the dictates of self-interest. The French papers agree that France will do her best to maintain peace, but will not take an active part until the crisis end in war.

A special despatch from Belgrade to the *Standard* says—"Serbia has declared war on Saturday on Tuesday and Wednesday. The Turks are trying to force their way to Parthenon, whence their march to Belgrade will only be interrupted by our best troops at Chappa. Considerable anxiety prevails here as to the issue, especially as the Russian army is so much in concert with operations on the Danube. The weather has suddenly changed from tropical heat to heavy rain, gales and cold. This favors the Servians."

A special from Vienna to the *News* says the Turks at Satalah have repulsed the Servians and driven them to the plateau of Koptah, and it is said they now intend marching on Parthenon.

A special despatch from Vienna to the *Telegraph* says—"It is generally considered certain here that the Czar has been informed in the Livian council by the predisposition of the Emperor, the Czar and Prince Gortschakoff, all of whom favor the view of the National party."

The *Times* despatch from Vienna confirms the report of Germany's rejection of the proposed six months' armistice, and its acceptance by the Russian Government. The correspondent thinks that Germany thereby shows her influence with Russia in order to force the other Powers to agree on a compromise which Russia can accept. He sees in this a prospect

of peace, but nevertheless regards the situation as most critical. The report that 250,000 Russian troops were ready to pass through Rumania is undoubtedly a gross exaggeration, but the correspondence has reliable information that the army corps of Kiev, Kharkov, and Odessa are under orders of mobilization, and there are other signs of preparation in south-western Russia. But there are indications on the other hand that the eventually against which this preparation must be made is not looked on as an immediate possibility. In the event of which these three south-western corps might put in the field is estimated at 100,000.

A Roster telegram from Athens announces that the Ministry have decided to convene the Chamber of Deputies Bill authorizing a general levy, and reorganization of the forces. Additional taxation and the settlement of the debt of Greece are also proposed.

The *Pull Mail Gazette* has a special despatch from Berlin which says: "The representatives of the mediating Powers are actively negotiating for an armistice until Dec. 31st, its acceptance is considered probable. The report of alliance or understanding between Russia and Italy is denied from a trustworthy source."

LONDON, Oct. 20.—The Council to be held by the Queen on Monday is summoned to meet at Balmore. A further proposition of Parliament will then be in order. At the close of the last session, Parliament was prorogued until October 30th. On Monday the proposition will be extended probably until February next.

The man-of-war *Shah*, carrying 26 guns, and reported to be the swiftest vessel in the navy, has been ordered to reinforce the British fleet in Bontia Bay.

The *Post* has information that Russia has ordered the mobilization of the troops which has headquarters at Warsaw.

A despatch from Belgrade to Reuters' Telegram Co. states that the Turks have captured Strozova, and taken the heights of Greda. The *Times* Paris correspondent states attention to the fact that since Russia's refusal of a long armistice she has been forced to face Turkey, no other Power can be expected to approach Turkey. That by a strange accord entire Europe has abandoned the fiction by which the discussion has been carried on in the name of Serbia and Montenegro. By one of the most singular transformations in history Russia and Turkey are virtually at war when England is trembling at the prospect of such a conflict. It will be therefore, no surprise if Turkey throws overboard the so-called collective protection of the Powers, and opens negotiations with Russia. The programme of Russia's wishes there are points to which Turkey will easily resign herself, but which the mediating Powers would oppose. Turkey cannot abandon her magnificent Bulgarian provinces without committing suicide. Turkey will not allow herself to be dealt in dealing only with Russia, save Bulgaria by granting the liberty of the Danube. It is true that Turkey is bound by the treaties of 1856, which the freedom of the Danube is, in contrast, but the powerlessness of Europe in driving Turkey into negotiations with her bitter enemy, and the Porte may break the treaty in despair.

Turkey cannot abandon her magnificent Bulgarian provinces without committing suicide. Turkey will not allow herself to be dealt in dealing only with Russia, save Bulgaria by granting the liberty of the Danube. It is true that Turkey is bound by the treaties of 1856, which the freedom of the Danube is, in contrast, but the powerlessness of Europe in driving Turkey into negotiations with her bitter enemy, and the Porte may break the treaty in despair.

The *Post* has information that Russia has ordered the mobilization of the troops which has headquarters at Warsaw.

A despatch from Belgrade to Reuters' Telegram Co. states that the Turks have captured Strozova, and taken the heights of Greda.

The *Times* Paris correspondent states attention to the fact that since Russia's refusal of a long armistice she has been forced to face Turkey, no other Power can be expected to approach Turkey. That by a strange accord entire Europe has abandoned the fiction by which the discussion has been carried on in the name of Serbia and Montenegro. By one of the most singular transformations in history Russia and Turkey are virtually at war when England is trembling at the prospect of such a conflict. It will be therefore, no surprise if Turkey throws overboard the so-called collective protection of the Powers, and opens negotiations with Russia. The programme of Russia's wishes there are points to which Turkey will easily resign herself, but which the mediating Powers would oppose. Turkey cannot abandon her magnificent Bulgarian provinces without committing suicide. Turkey will not allow herself to be dealt in dealing only with Russia, save Bulgaria by granting the liberty of the Danube. It is true that Turkey is bound by the treaties of 1856, which the freedom of the Danube is, in contrast, but the powerlessness of Europe in driving Turkey into negotiations with her bitter enemy, and the Porte may break the treaty in despair.

Feeling much a lively man; I thought making a strong man, and all these put together make a perfect man. Now these three things, feeling, thought and action; but neither can abide without the others. Some men think much, feel little, and less. They are universally unuseful and unproductive. The acknowledgment of a fault is often more effectual than any deed of atonement, and confession is specially followed by forgiveness. Words, which we may call the still small voice, and which have often more consequence than deeds, which come more seldom, like the hour-hand. And the artificial relations of cultivated people can never take the place of nature.

The road to virtue is at first rugged, steep, covered with rocks and flints, bristling with thorns and thickets and bordered by precipices and torrents. In order to advance one must make continued efforts, one must climb and not walk, except with the greatest circumspection. But if one has the courage to overcome the first difficulties the further one advances the smoother the way grows.

Do you not think, yes, that is the idea. Think for yourself. It is well to listen to the expressed thoughts of others and it is an agreeable pastime to give expression to your thoughts; but when alone weigh what you have said. It is well to do this if it will assist in curing you of false notions and eradicating unprofitable ideas, and in time, make you better men and women. What you thus gain from your surroundings you will unwittingly give to the rising generation, and the result will be that you will do your share in the glorious work of elevating the human family. Do your own thinking.

The Doctor says: "A patient of mine, who had been suffering from Piles for some time, began taking THE GREAT REMEDY. I watched the effect, and I do say that I consider it an invaluable remedy for that most distressing complaint. In many forms also, of Dyspeptic Indigestion, I have known it to be of useful service."

FALL ASSIZES.

FIFTH DAY.

FRIDAY, Oct. 20th.

MURDER.

James McCrea was arraigned, charged with

feloniously killing and slaying Mr. Joseph

Murphy, in the Township of Montague, on

the 5th day of April, 1876.

The prisoner pleaded not guilty.

The following jury was empanelled: J. V.

Carey, F. Lawrence, W. Coffman, J. C.

Graham, D. Kenny, J. H. Rath, J. W. Par-

rot, P. Lusk, A. Cannon, J. G. W. Davis, E.

Bridges, Henry Kask.

There were twelve jurymen challenged by

the prisoner's counsel, and one by the Crown

prosecutor.

The Crown prosecutor at some length ex-

plained what constituted the crime of

murder, and then proceeded to show that

the prisoner was guilty of the same. He

stated that the prisoner was found in a

tavern at the time of the murder, and

that he was seen by the jury to be

drinking, and that he was seen to be

## LINEN GLACE.

It is a scientific combination of several of

the best articles known for laundry use.

Combines readily with the starch.

Makes ironing easy by preventing the iron

from sticking to the fabric.

Gives to all fabrics a peculiar finish.

Can be used in either hot or cold starch.

Is invaluable in doing up all linens, such as

## Daily Intelligencer.

BELLEVILLE, TUESDAY, OCT. 24.

## Town and Vicinity.

**THE CELLS**—No less than six prisoners and one vagrant honored the police station with their presence last night.

**TOWN COUNCIL**—The proposed meeting was not held last night, a quorum of members failing to appear up to 8 o'clock.

**COMPANY DEED**—No. 1 Company of the 40th Hastings Battalion began their annual drill in the morning last evening. A large number were present, but it is expected that at the next drill the ranks will be full.

**VESSEL CHARTER**—The Oswego Fallers report the charter of the schooner *Gerrit Smith*, which has been laid up at Oswego, to carry two cargoes of barley from Trenton to that port at 2 1/2 per bushel—a paying rate.

**QUITS**—Business along the docks was very quiet this morning—in fact the harbor would have been entirely deserted by traders but for the presence of the large *Martin*, which is still at Pretty's dock loading barley.

**PERSONAL**—The teachers of Groves Sabbath School, Sidney, lately presented their Superintendent, Mr. Ralph R. Bird, with a purse of twenty-four dollars, advising a visit to the Centennial Exhibition. Mr. Bird is now en route for Philadelphia, to enjoy the advantages of such a visit.

**GRAIN MARKET**—The market was more buoyant to-day, and an advance is to be noted in barley. No. 2 sold at 65c. per bus. and No. 1 at 75c., whilst for a few extra good samples to complete a cargo, as high as 80c. was paid. Oats are again declining, the Oswego market is rather more favorable, and further appreciation in values is looked for.

**AN EFFICIENT REMEDY**—When any one is run over in St. Petersburg by a carriage causing the accident is confiscated, the horses are taken to the fire brigade for public sale, and the driver is imprisoned and fined. Hence fewer accidents than anywhere else. Such a law as this would not answer in any free country, but there is room for improvement in our own laws in regard to occurrences of this nature.

**FOR THE CENTENNIAL**—The Rome, Watertown and Ogdensburg Railway Company announce, through Capt. A. C. Hayes, their agent here, the last cheap excursion to the Centennial Exhibition, which is to close on November 10th. Tickets have been placed at \$10 from Cape Vincent to Philadelphia over the direct route, and \$11 from New York. The excursion is to take place to-morrow.

**THE GRAY TRAIL**—Vessels which have been stripped of their canvas are reported from several places as being ready for a venture in the grain trade. Freight has risen to a profitable rate, and there is still a prospect that vessels of this class will be able to earn the interest on the capital thus invested and to pay for wear and tear. This is all that was more than a very few lucky ones will be able to report as the proceeds of the season of 1876.

**THANKSGIVING DAY**—The Lord Bishop of Ontario and the Lord Bishop of Toronto have each issued circulars, through agents calling attention to the fact that the Lieutenant Governor of Ontario has appointed the second day of November as a day of Thanksgiving. This is proper and commendable, as confusion has resulted in previous years from the Lieutenant Governor appointing one day and the Bishops another day for thanksgiving services.

**BELLEVILLE AS A REPRESENTATION STATION**—Well ordered as the Grand Trunk Railway Company is in all its departments, and considerable as are the efforts made by the Company and all its officials from the highest to the lowest, to secure the comfort of the passengers who travel over the route, yet it must be a mistake that has been made in the location of the refreshment room at Coburg and at Kingston. Under present arrangements, travellers are compelled to take their meals at unreasonable hours, whereas were the refreshment room at Kingston and Coburg closed and one large establishment opened at this station, the trains are so timed that passengers would be able to take their meals at regular hours, which would conduce much to their comfort, and render much more complete the Company's arrangements.

Mr. Lewis, Oct. 24.—After a good deal of vexatious litigation and delay, the U. S. circuit court made an order that upon the payment of \$50,000 cash, and execution properly made for five hundred and fifty thousand dollars, the *Mc Pacific Railroad* be turned over to James Bates, trustee for Cornelius K. Harrison, and a deed for the property be given to him by L. D. Thompson, Master in Chancery.

Mr. Lewis, Oct. 24.—You will save time and trouble with your sewing machine by using Clark & Co's No. 100 Extra Quality Sewing Cotton. Notice the Anchor on each Spool.

## RUSSIA REQUESTS THE ENGLISH PROPOSALS.

BRUSSELS, Oct. 23.—A special from Vienna to *Le Nord*, the organ here of the Russian Government, announces that Gen. Ignatieff, Ambassador at Constantinople, will insist on the six weeks' armistice. He is instructed to explain Russia's motives to the Porte. It is believed that his representations will be moderately couched, and not take the form of an ultimatum, and that the other Powers will support Russia's proposals.

A despatch to *Reuter* from Constantinople announces that the Government has discovered a conspiracy to murder the Grand Viceroy and Midhat Pasha, and has arrested 'two Umehs of high rank and Roman Catholics. The culprits have been exiled to various islands. Other arrests are expected.

BRUSSELS, Oct. 23.—A despatch to the *Standard* from Djinnia says there was no fighting on Sunday. The Turks have advanced their headquarters five miles. The storming of a fourth mountain over which the highway to Keshavarz runs is still to be done.

The *Standard's* Belgrade correspondent reports that unparalleled distress prevails in both Austria and throughout Bosnia. Peace is speedily proclaimed the country will be utterly ruined. There is no suffering in Belgrade, but in the interior thousands of people are starving.

The majority of the soldiers are wearing their summer linen uniforms and have no blankets. There are 180,000 Bulgarian and Russian refugees in Serbia.

The same correspondent reports that Russian diplomatists say Gen. Ignatieff has been instructed to inform the Sultan that Russia makes the English proposals here with additional guarantees. If the Porte rejects them, intervention will be begun simultaneously by Russia, Greece, and Romania.

A *Reuter's* telegram from Vienna states that the interpellation relative to the Eastern question which is proposed to introduce in the Reichsrath is regarded in diplomatic circles as an error of judgment, as Austria's policy is still adhered to the triple alliance.

The Council previously announced was held by the Queen at Balmoral Palace, Perth, on December 12th.

The *Reuter's* Telegram Co. confirms this statement precisely, except as to the proposals for a prolongation of the armistice, which, they say, are made as conditions, not as suggestions.

The *Post* denies that Russia has sent an ultimatum. The Ottoman Government has not been summoned to accept its reforms to Constantinople, and an agreement has been reached as to the stipulations of the Treaty of Berlin.

A *Reuter's* telegram from Constantinople announces that Gen. Ignatieff will have a private audience with the Sultan to-day.

A *Times* despatch from Berlin also says that the Porte really to grant the Ottoman demands provided the integrity of the Ottoman Empire is guaranteed.

A despatch to the *Telegraph* from St. Petersburg announces that Lord Loft has no diplomatic mission at Livadia. The Czar probably has to stay there until December, therefore the ordinary conduct of business is transferred to Livadia.

In a semi-official statement the *Post* announces that the Porte accepts the six weeks' armistice at the conclusion of the first six deliberations are completed, and if at the end of twelve weeks no settlement is reached that there be a further armistice of two months.

A special to the *Daily News* from Peth says the Russians believe that if the Turkey take Kiuschewatz, Russia will make an armed invasion. From Belgrade comes the news that Gen. Tchernoff has withdrawn from Djinnia, and the road is open to the Russians.

It is reported that the Hospodar Prince Charles is to be proclaimed King of Romania.

## AFTERNOON DESPATCHES.

LONDON, Oct. 24.—A *Reuter's* despatch from Constantinople says it is stated Russia has already indicated her willingness to agree to the prolongation of a six weeks' armistice. It is hoped that an agreement will be reached on the basis of Turkey's acceptance of an armistice, as announced in the semi-official statement in this morning's *Post*.

A special from Peth to the *Daily News* represents that there is intense excitement here and strong hostility to Russia. In case Russia commences war it will be difficult for Austria to preserve neutrality.

LONDON, Oct. 24.—A *Times* despatch from Berlin states that a financial crash of the most serious character is threatening in Russia. The public business the banking offices to stop, and the Russian Government is threatened as a rule officers are declined. On the 18th and 19th inst. nothing was saleable at any price, and money was hoarded. Gen. Ignatieff's mission take a walk to Constantinople. The crisis is worst in the south-western provinces, so contagious to the possible west of war. A commission of bank directors a few days ago decided that they could do nothing to stay the crisis. Accordingly fresh issues of inconvertible paper, already, already more plentiful than at the time of the Russian war, are expected.

HARTFORD, Conn., Oct. 24.—Hiram S. Bailey, a town of Haddam, Middlesex County, has a number of kindred spirits to carouse on Saturday night. On Sunday morning passengers will see the house, dated 1876, which is the sign of the house.

MINNEAPOLIS, N. Y., Oct. 24.—The Centennial excursion train from the New York Midland road was running in five sections yesterday, and the train ran into the *Twins*. One passenger was killed and six wounded.

## Daily Intelligencer.

BELLEVILLE, THURSDAY, OCT. 26.

## Town and Vicinity.

**BRIE FISH.**—A marksmanship of the weight of forty-eight pounds was captured in the bay on Tuesday.

**POLICE STATION.**—Two prisoners and two voluntary helpers shared the accommodation of the cells last night.

**LECTURE.**—Rev. John Burton will deliver a lecture in the Blackie Street Church on Thursday evening, Nov. 2nd. Subject: "Astronomy." Tickets only 10 cents each.

**PINK STORIES.**—Four gentlemen who went out snipe shooting near town yesterday afternoon had magnificent sport, the product of their skill being eighty-two snipe, and other game.

**STOLEN HORSE.**—A telegram from Campbellford apprises the police here that a light bay horse and phaeton buggy have been stolen from their owner in that place, and that the thief was supposed to have driven in the direction of Belleville.

**RIFLE MATCH.**—The Colours Rifle Association will hold its ninth annual match on the range east of the town on Thanksgiving day, commencing at 9 o'clock sharp. Prizes amounting to about \$180 will be offered.

**47TH BATAVIA RIFLES CLUB.**—Threatening of this Club commencing this morning, the number of competitors being but four. The weather was unfavorable, the wind being strong and gusty, and the air chilly. There are no more to be shot.

**PERSONAL.**—L. G. R. C. Hulme, of the 15th Battalion, who has been absent about three months at view to the old country, has arrived at home. Mr. Hulme seems to have a very enjoyable time, judging from his robust appearance.

**THE GRAIN MARKET.**—There is no change whatever to record to-day, though there is a less favorable feeling than prevailed yesterday. Receipts to-day were moderate. The *Ontario Belle* averaged about 5,000 bushels No. 1 barley from the Farmers' Warehousing Company's elevator.

**MILK STEPS.**—It is stated that a company from Toronto are making arrangements with some of the Hamilton farmers to deliver milk at the O. T. Station, Stratford, once per day, to be taken on board the Express and run to Toronto for city consumption. Cash adapted for this purpose will be furnished by the company.

**"THE WEDDING JOURNEY."**—Messrs. Gifford & Bro. have just issued a neatly printed volume entitled "The Wedding Journey," by W. D. Howells, a popular author. It is a purely original and amusing survey of the wedding party take in on Canada ground, and therefore has a local attraction; and being written in a lively, entertaining style, will no doubt have an extensive sale.

**"OUR COUNTRYMEN."**—By Blanche Willard, Bedford Bros. publishers, Toronto, pp. Mr. Harrison, bookseller, has set out on our table this beautiful story by popular author, Blanche Willard. Reprinted from the fourteenth American edition in a neat and tasty style, and so that it is a reprint from the fourth American edition is a good criterion of its popularity. Lovers of higher class of literature should read "Summer."

**AMERS AND ROBBERS.**—We do no violence to the charitable feelings of our friends in advancing them against entertainers, beggars or other vagrants. It is no hope that by acting adversely advice they will entertain an angel, but on the contrary they may give the angel aid and comfort. The numerous bad characters who are now "on the road." The police will provide for the angels, and it will be well to take care of the vagrants, real or pretended, as the case may be.

**BY THE WAY.**—The *Colours Sentinel* very recently remarks: "It is well known that drivers and teamsters to know if they do not know it already, that persons on the right of way over street crossings, and that by law they are compelled to give it. They are liable if they do not." We have recently seen drivers and teamsters overcrossing, without holding their horses, nearly running over passing pedestrians. After a few are arrested, they will learn to do better.

**WE** would advise all our contemporary misers to regard, and would that the misers of this town should take the same view of the street crossings as intended as halting places for their wagons and their vehicles. The police generally have the vehicles on the crossings, this compelling the drivers to wait until it suits the convenience of the driver to move on, to retrace their steps, or to pass sideways, or to pass around the vehicle, no matter what the

## Daily Intelligencer.

BELLEVILLE, FRIDAY, OCT. 27.

## Town and Vicinity.

**POLICE COURT.**—No cases for trial to-day, and no prisoners were brought before the bar of justice.

**ST. JOHN'S CHURCH.**—This church, in West Belleville, is to be opened on Sunday, Nov. 5th. Bishop Lewis will officiate on the occasion.

**SHEPHERD BY GRANGE.**—We learn that the members of the Front of Sidney Grange have shipped a cargo of barley on their own account.

**GRAIN MARKET.**—The market to-day was unchanged, prices of barley ranging from 60c to 75c, whilst extra good samples brought 80c. Receipts large.

**COMING.**—We were visited to-day by Mr. Geo. Peck, agent for Tom Thum's troops. The little folks are to appear in the Metropolitan Hall on the 7th November.

**REV. MR. BLAND.**—The many friends of this Rev. gentleman in Belleville will regret to learn the following news: "A letter from Quebec to the Montreal Witness says: Rev. Mr. Bland, pastor of the Methodist Church, is seriously ill with a gastric fever."

As usual Walsh & Co., Commercial House, are taking the lead in overcoats. They are now selling an overcoat for \$3.50 and a peacoat for \$2.50, which are the wonder of the age. They also have at present an unusually large and varied stock of winter clothing in all styles, shades and qualities at extraordinary low prices. It

**ROWDINESS.**—Mr. Wm. Thompson, who lives on the Canfield road, informs us that about 1:30 this morning a number of ruffians came to his house, breaking a number of windows and smashing up his car. Two or three children who slept in a bed close to the window had a very narrow escape. They also assaulted Mr. Andrews' house, in the same neighborhood, but did less damage there. The parties are unknown, but they are doubtless part of a gang who have of late committed numerous outrages in that locality, and are fast becoming the terror of the neighborhood. We commend the master to the attention of the police authorities, who we hope, take such action as will prevent the repetition of such occurrences in the future.

**LOOK OUT FOR THEM.**—A contemporary has the following seasonable remarks: "The season of the year has arrived when appeals for honors at the disposal of the town get up early in the morning and 'constitutional' walks up and down the back streets. Like the ingenious men these always are, they unite business and pleasure into such a perfect compound that you can't tell 'till after the fact if your name appears upon the list of voters you are a personal friend and the bowing and handshaking necessary to show your respect for you would amount to a first-class circus. One can't ask you to take any note at all, but beware! That time will come soon enough, and rate-payers will do well to keep a sharp look out for the best men, and give them a hearty support."

**SOME OF THE ADVANTAGES.**—The advantages of an evening paper for advertising purposes are apparent on reflection. In the morning the day's work is before the husband and housewife; the paper is taken up, and a hasty glance given to the telegrams and local news, and is thrown away for the cause of the day. There is no time to read further, and before evening the paper is transformed into a dress pattern or into a fire-brick. The evening paper comes in at a time when the laborers of the day are completed, and the hours between tea and bed time are given to reading. The telegrams, local news and miscellany are all read, and still there are hours to spare, and the advertisements are read and re-read, and the bargains offered discussed in the family circle, and conclusions reached as to where to make purchases.

**STORM ON THE LAKE.**—The Oswego Palladium of Tuesday says of the storm of Monday night: "The wind had been south all day, but about eight o'clock it suddenly veered to the northwest, and the storm came butt-end foremost. It was not of long duration here, but on the lake it continued until after midnight, stirring up the water until the keels appeared in places. During the afternoon several vessels left port and many of them doubtless were compelled to go to South Bay. The schooner *Chas. A. Brown*, when about Pulteneyville last evening had two of her ribs rent into ribbons and had to return to port. The schooner *Great Waters*, coming over from Canada, lost a rib and shipped so much water that her bedding was drenched. The steamer *Oswego* left with barley for this port, encountered the storm soon after passing the Ducks. Captain Ely says that he never

saw heavier seas. The steamer was boarded by water from every direction, and the deck drenched upon her. The wind and her starboard gangways were crushed as though they were egg shells. Once the water gained an entrance to the main deck it soon made its way to the hold and before the damage could be repaired had wet about 4,000 bushels of barley."

**POLICE MATTERS.**—There were but three inmates of the cells last night, and yet the place this morning "smelled to heaven" as if a skunk had been let off. One of the stable lads is recovering rapidly, and McCoy's illness has taken a favorable turn. The child is, unfortunately not in the best of health. Recently there is some fatality connected with the police force at present.

**CLUTTON TO FARMERS.**—An exchange of cautionary farmers against a swindle which, this described: "A farmer in Homer, by the name of Erasmus Brooks, has been swindled out of \$750. Two men called upon him, and sought to sell him a half interest in a farming outfit. He declined to purchase. They then requested him to lend him his land to induce a neighbor to purchase. He was to give his note for the amount. This was to be sold to the neighbor and, after he had, by his influence, been led to buy the other half interest for \$750, his note was to be returned to him, and with it \$100 as a bonus for his trouble. He has not yet seen the parties since. They raised the money on his note, and he is out of his house, and has heavy obligations to meet when it becomes due. Strange it is that any one should be misled by such a scheme of fraud."

**RELIEF NOTES.**—The Kingston *Weekly* recently: "The annual match of the Hastings Rifle Association will take place Tuesday and following days at the rifle ranges, Belleville. Some of our boys are going up, and if we can't beat the Belleville men, we will water our necks with the rifle, especially after the trouncing the Oswego riflemen gave them this summer. Upon which the Oswego *Palladium* remarks: "It was not much of a trouncing, Mr. *Weekly*. If your fellows shoot as well as you boast, they may beat the Belleville boys. After you beat them let us know, and we will take the conceit out of you. The Kingston men did well, but they did not 'beat the Belleville men.' Capt. Bailey being a point below Corporal Hillyard, of the 49th, on the aggregate, and Sgt. Bailey standing fourth on the aggregate with 153. This Belleville is ahead of Kingston in rifle shooting, as well as in other sports. We may also form our Kingston contemporary that one of the riflemen from that city expressed himself, by being so modest, as being anything but in the advance of the result of the matches."

At Syracuse, on the 25th, a team of the 48th Oregan regiment won the Sixth Division first prize.

## Government have lost all control over Tchern-

## ayeff, who is completely at variance with the

## Minister of War. With regard to the rumors of a crisis, the

## correspondent says: "Doubtless the Ministers

## would gladly resign if the Prince would

## accept their resignations and if they could get

## others to replace them, but those difficulties

## make a change of Ministry impossible. It is

## generally expected here that Servia will be

## created a Kingdom, but this anticipation only

## increases the Russian passions against the

## Kingdom. Only thirty Russians arrived yesterday."

The *Times*'s correspondent with the

## Turkish army telegraphs: Nisch, Oct. 25,

## that the Servians on the 21st evacuated

## Kaoak after partly destroying the place. The

## Turks now hold the town and have found

## valuable booty there.

The *Times*'s Vienna despatch announces

## that Prince Chika has arrived there, and

## goes to England, which Power his mission

## mainly concerns. What I hear confirms the

## impression that Romania is still hesitating.

The Vienna correspondent of the *Times*

## confirms the capture of Djunis by the

## Turks. He gives the following narrative of

## the five days' struggle, from the 19th to the

## 23rd inclusive, and says it was unquestion-

## ably the greatest success during the

## campaign. In consequence of their defeat

## the main part of the Servian army has been

## drawn to Deligrad, but a part at least of

## Horvath's forces has been cut off in the

## direction of Krusze, where it can, however,

## be reinforced by the Servian Morava to Slatis.

## It is not known whether the Servians still

## hold on to the left bank of the Morava, but

## this seems to be immaterial. They cannot make

## a stand there, as they would be liable to be

## cut off from the river and forced into the

## open formed by the confluence of the two

## branches of the Morava. Unless an armistice

## is concluded the Servian must move back

## behind their defensive line from Alexina and

## Deligrad, which would leave the Servians

## open the Morava Valley with all its resources

## to the Turks.

A despatch to the *Times*'s dated Berlin, Oct.

## 25, 8 p. m., says: "There is reason to be-

## lieve that Russia being herself aware to war

## is endeavoring to induce Greece and Rou-

## mania to take the field. They however hesi-

## tate."

The correspondent of the *New German**Gazette* from St. Petersburg denies the more

## alarming reports, such as those of the con-

## centration of large forces on the Turkish front-

## ier and the calling out of the reserve. The

## writer says the army is not yet on a war

## footing, only preliminary measures have been

## taken, so that in case of war a considerable

## army could be in readiness without delay.

CONSTANTINOPLE, Oct. 26.—The *Phare* of

## Bosphorus newspaper of this city publishes the

## text of the speech delivered by Gen. Ignatieff,

## to-day—Oct. 25, 1890. He said that his cred-

## entials to the Sultan. Gen. Ignatieff said

## the Car understood the difficulties of the

## situation, and although he did not dissemi-

## nate his sympathy for Turkey's Slavophil policy,

## he trusted the existing difficulties would

## be removed so that the Sultan might improve

## the condition of his subjects. The Sultan

## replied in a similarly conciliatory strain. He

## hoped the Car would contribute towards

## facilitating reforms.

## BRUSSELS, Oct. 26.—Advices received here

## from Vienna represent that the positions of

## the Austro-Hungarian Minister of Foreign

## Affairs, Count Andrassy, and Herr von

## Hugenberg, are precarious. The students of

## the University of Pesth, who have been for-

## bidden by the police to take part in the demon-

## stration in honor of the Turkish Consul,

## have determined to disregard the prohibition.

## No conflict, however, is apprehended.

## PARIS, Oct. 26.—The French Minister of

## War, M. Cassin, has asked for reinforcements

## for the Servian army of the Bar, and Col. Baker

## has been ordered there with fresh troops. An

## official bulletin says the Turks on Tuesday made a desperate

## attempt to break Novodol's line, but were

## repulsed with great slaughter.

## AFTERNOON DESPATCHES.

## NEW YORK, Oct. 27.—An [Annapolis

## dispatch says: Cadet midshipman, C. C. C.

## Illinois, who refused to testify in the investi-

gation of the case of the *Hazards*, was yester-

## day dismissed from the Naval Academy. This

## is the 9th Cadet who has been dismissed for

## the same offense.

## A despatch from St. Johnsbury, Vt., says:

## Yesterday morning at Chatham Falls Frank

## Johnson, C. Putney and John W. Johnson, who

## were engaged in a paper mill and placed some

## rock to dry under a stove in the basement.

## The explosion, which took place on the first floor,

## four feet square, into kindling wood, and buried

## the men skyward. Heon was badly injured

## and may die, Johnson and Putney will recover.

## A falling derelict instantly killed E. M.

## Hawkins, one of the proprietors of the

## Jobbley Tea Company. The building, 29

## John Street, was struck by a boiler in the mill,

## and a number of persons.

LONDON, Oct. 27.—A despatch to the *Tele-*

BELLEVILLE, TUESDAY, OCT. 31.

**TOWN COUNCIL.**

Monday, Oct. 30.

The Council met at 8 o'clock.

Present.—Messrs. Patterson, J. H. Ham-

lin, Lingham, Lattin, Beatty, St. Charles,

Petrie, Smith, Pringle, S. Hamby, Holden,

Pope, and Henderson.

In the absence of the Mayor, Mr. Pat-

terson was appointed to preside.

The minutes of the last meeting were read

and approved.

**PETITIONS, &c.**

The following petitions, &c., were read and

referred to the proper authorities.

From Frank Dolan and others, for a

walk on the north side of Henry and East

sides of Cedar Street.

From W. E. Holden and others, for the

graveling of Charles Street.

From Sanford Baker and others, offering

to erect an elevator and storehouse on the

lot between Vanhook and St. James, and

providing the town will petition the Govern-

ment to grant to them the patent for said

lot.

From N. R. Finkler and others, for lights

on Ottawa and other streets—6 gas lamps in

all.

From Wm. Irwin and others, for the dig-

ging of a well at the corner of Lewis and

Yamouss Street.

From W. F. Mendall and others, for the

granting of the petition of Sanford Baker

and others.

Communication from Messrs. Rathbun, re-

garding the resolution of the Council concern-

ing Mill Island, that they are very busy at

present, but will give the matter their con-

sideration.

Several accounts were also presented and

read.

Mr. Holden asked that the petition con-

cerning the Vanhook property, set out in

Murray Ward, be allowed to lie on the table.

Mr. Henderson considered that these were

embarrassing matters which should go before

the Committee. Some of the members

expressed their opinion that the matter should

be taken up to-morrow on matters of much im-

portance.

Mr. Holden could not see the force of Mr.

Henderson's objection. He did not see just

what he wished to proceed regularly. There

could not be in a position to pass upon mat-

ters of such importance without inquiry.

Mr. Fahy did not consider that they were

a petition to take up Mr. Baker's petition

only, but he was prepared to take up the mat-

ter of the petition for gas lamps.

Mr. Holden said Mr. Baker's petition might

be referred, after the discussion on his motion

in regard to it.

Mr. Pope said the matter of the gas lamps

ought to be proceeded with, as now was a

very favorable time for making the excava-

tions.

Mr. Henderson withdrew his objection to

the laying on the table of the petition regard-

ing the gas lamps.

Mr. St. Charles moved that the matter

ought to be dealt with to-night, as the expen-

diture was reasonable, and work would be

given to a number of men.

Mr. St. Hamby thought it might be well

to decide to-night, as the Committee would

be called together, and they would not get a

quorum.

This petition was allowed to lie on the table.

Mr. Henderson moved that the petition in

the Street Surveyor's pay list be adopted.

Committee rose and reported.—Adopted.

**BY-LAWS.**

Council went into Committee on By-laws.

Mr. Pope in the chair.

Mr. J. H. Hamby moved the second read-

ing of the By-law for levying the taxes. He

said he had communicated with a number of

municipalities as to the rate for the year

and had received replies from a number

which ranged from 15 cents to 20 cents on

the dollar. In London they had paid 15 cents

per annum, which was \$2,500 a year, whilst

our department cost nearly that sum, and he

Why Creameries are Needed.

A writer insists that the private dairy is

better for making butter than the cream-

ery. So far as this article is concerned, it

is a fair one. It is true that the private

dairyman is better able to control the quality

of his product, and that he is better able to

control the quality of his product, and that he

is better able to control the quality of his

product, and that he is better able to control

the quality of his product, and that he is
